## GOVERNMENTAL NEWS

### Arizona

Arizona Archaeology Week 1992 will be celebrated March 14-22. Organized by the SHPO's office, this year's theme is Partners in Preservation. The Calendar of Events includes programs at Roosevelt Lake, Homolovi Ruins State Park, Tempe Historical Museum and the Mesa Southwest Museum. One of the highlights of the week-long celebration is an Archaeology Fair at Casa Grande Ruins National Monument, March 14-15. This fair, which also is a celebration of the Monument's centennial, will include special tours to sites in the Monument that are not regularly open to the general public. For further information on any of these events or to receive a detailed Calendar of Events, contact Teresa Hoffman at the SHPO, ☎ 602-542-4174 or 602-542-4009.

### Connecticut

Twelve Connecticut towns have sanctioned revisions to local subdivision regulations and/or local review procedures to identify and protect significant historic and archaeological sites as part of planned community growth. Emulating the precedent set by Greenwich and Westport, all communities stress avoidance and preservation of cultural resources and burial areas as a local preference.

The Ledyard Planning Commission is the most recent local government to adopt regulation to protect historic sites, archaeological resources and human burials. According to *Digging In* (News from the Office of State Archaeology & the CT Historical Commission): "Ledyard's regulations are

particularly noteworthy for their clarity and direction to would-be-developers and their advocacy of in situ preservation wheresoever possible."

The review process for Ledyard's revised regulations was a collaborative effort of state and local officials, as well as consultation from the Mashantucket Pequot Tribe. Of note is the addition of a provision for requests for technical expertise of the Office of State Archaeology and/or State Historical Preservation Office in the identification and evaluation of historical and archaeological properties.

### Florida

The December issue of *The Grapevine* included an article on the Florida Archaeological Council's "An Action Plan for Archaeology in the 1990's." We have since had inquiries about receiving a copy of this document. For parties wishing to put together a similar plan for their state, contact: FAC, PO Box 919, St. Petersburg, FL 33731, Attn: Bob Austin.

During the past year two local historic preservation ordinances were passed which included the protection of archaeological sites. Both Collier County and Volusia County passed ordinances which provide protection for archaeological sites. The passage of these ordinances was actively supported by numerous members of the Florida Archaeological Council and the Southwest Florida Archaeological Society.

## READER PROFILES

The readers of *The Grapevine* include a wide range of subscribers, including industry, consultants, government agencies, and individuals. *The Grapevine* plans to feature profiles on members of these various groups. Starting with the March issue, corporate subscribers (industry or consultant) will be featured. These features result from a suggestion submitted by New South Associates. Therefore, their corporate profile is included later in this issue to be used as an example for future submissions. Any corporate subscriber wishing to be included should submit a 200-word profile by March 6, 1992.

### Indiana

An amateur archaeologist decided to challenge the 1989 Indiana law which, in part, prohibits property owners from excavating artifacts on their own land. The state law prevents persons from excavating artifacts on any site in the state dating prior to 1816 without an approved plan and permit from the Indiana Department of Natural Resources, and penalizes those who knowingly or maliciously disturb sites with archaeological significance. The amateur archaeologist, who was arrested in July 1990 on his own property in Dearborn County, told a local newspaper that he had allowed himself to be arrested to test whether the vaguely-worded law applied to private property, as well as leased and public properties.

In response to these charges, the accused filed a petition for declaratory judgement in April of 1991. When the state petitioned for dismissal, the case ended up in civil court. At issue was the ambiguity of the law and its subsequent amendment. In late December 1991, the judge ruled in favor of the state, stating that the law and the amendments apply to all land within the borders of the state of Indiana. However, on January 30, 1992, eight jurors brought back a not guilty verdict, stating that the state failed to prove that the individual was looking for artifacts.

### Kentucky

The Kentucky Heritage Council (KHC) has a new publication *Heritage Sprint*, a newsletter developed to improve communications between KHC and preservation professionals who work in the state. Edited by Joseph Brent, *Heritage Sprint* includes features such as PUBLICATION OF INTEREST, RESEARCH NOTES, EDUCATIONAL OPPORTUNITIES, and CONFERENCE NEWS. For more information or to be added to their mailing list, contact Joanne Weeter at ☎ 502-625-3501 or Leslee Keys and Donna Neary at ☎ 502-625-5761.

### Ohio

Ohio's historic shipwreck management bill, House Bill 264, was signed into law by Gov. George Voinovich. When this law goes into effect, it will bring Ohio into compliance with the Abandoned Shipwreck Act of 1987. Furthermore, provisions

in the law will allow for the establishment of a submerged lands preserve in Lake Erie to protect historic shipwrecks, aircraft and prehistoric and historic Native American sites.

### • PUBLICATIONS

**National Park Service** has four new publications in its *Preservation Briefs* series:

- \* *Preservation Briefs 24: Heating, Ventilating, & Cooling Historic Buildings: Problems and Recommended Approaches.* \$1.00
- \* *Preservation Briefs 25: The Preservation of Historic Signs.* \$1.00
- \* *Preservation Briefs 26: The Preservation & Repair of Historic Log Buildings.* \$1.00
- \* *Preservation Briefs 27: The Maintenance & Repair of Architectural Cast Iron.* \$1.00

Titles in the *Preservation Briefs* series are available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402-9325. Prices include postage & handling.

Books on antiques and collectibles are often the best source available for the identification and classification of 19th and 20th century historic artifacts. **The Reference Rack, Inc.** publishes a nineteen page catalog of books in 19 categories such as: *Advertising - Bottles, Art - Architecture, Books - Postcards - Paper, Furniture, Glass, Jewelry, Kitchen - Primitive - Country, Lighting, Marks (Pottery & Porcelain), Pottery & Porcelain, and Textiles - Buttons.* For a copy of the catalog write to: The Reference Rack, Inc., Box 445C Orefield PA 18069. ☎ 1-800-722-7279.

### DEVELOPERS' AND PLANNERS' HANDBOOK FOR ARCHAEOLOGY

To help developers, agency planners and coordinators, architects, and engineers through the archaeological part of environmental permitting processes at the state and federal levels, AF CONSULTANTS has created *Archaeology For Business People: A Handbook for South Carolina Developers & Planners* (1st Ed. April 1990).

This guide should be of interest to those in commercial, residential, and industrial development, as well as public agency planners. Contents include:

- Developers & Archaeologist: Something in Common?
- The Legal Framework: Don't Get Buried Under Historic Preservation Requirements.
- The Archaeological Consultant: Where to Look & What to Look For.
- Scoping & Pricing Archaeological Services: The Bottom Line.
- Straight Talk: The Business Community Speaks.
- After the Fieldwork: Why Archaeological Costs Don't End There.
- Taking Your Project Questions on the Road

## CALENDAR OF MEETINGS

**February 29-March 1 - Kentucky Heritage Council Archaeological Conference**, 9th annual meeting, Murray State University, Murray, KY. The conference will be held in Johnson Theater, Doyle Fine Arts Center. A block of rooms have been reserved at the Shoney's Inn (tel. 502-753-5353). For further information contact: David L. Morgan, Director, KHC, ☎ 502 564-7005.

**March 7 - 11th - Oklahoma Symposium on Comparative Frontier Studies**, University of Oklahoma, Norman, OK. Theme: "Ethnogenesis: A Frontier Phenomenon." Contact David H. Miller, History Department, University of Oklahoma, Norman, OK 73019.

**March 19-22 - Central States Anthropological Society**, annual meeting, Cleveland OH. Contact: Jack Glazier, Department of Anthropology, Oberlin College, Oberlin, OH 44074.

**March 27-28 - Colorado Council of Professional Archaeologist & Utah Professional Archaeological Council** joint meeting, in Grand Junction, CO. Contact: Mike Piontkowski, BLM, ☎ 303-243-6561.

**March 27-29 - The 1992 Middle Atlantic Archeology Conference** will be held March 27-29 at the Sheraton-

Fontainebleau Inn and Spa, Ocean City, Maryland. For further information contact the program chair, Charles W. McNett, Jr., Department of Anthropology, The American University, Washington, D.C., 20016. ☎ (202)885-1839

**March 26-28 - The Florida Anthropological Society** annual conference will be held March 26-28 in St. Augustine. For information contact Charles Tingley, St. Augustine Archaeological Association, PO Box 1987, St. Augustine, FL 32085.

**April 8-12 - The Society For American Archaeology** annual meeting, Pittsburgh, PA. Contact: Gary Feinman, Department of Anthropology, 5249 Social Science, University of Wisconsin, Madison WI 53706.

**April 23-25 - "Women in Geoscience Conference"** Canton, NY. Contact: Geology Department, Brown Hall, St. Lawrence University, Canton, NY 13617.

**April 24-26 - Second Salado Conference**, Arizona Archaeological Council Meetings, Globe AZ. Contact: Rich Lange, Arizona State Museum, or Steve Germick, Tonto National Forest.

**April 30-May 3 - The California American Studies Association Conference**, California State University, Fullerton, CA. Theme: "Origins & Visions: American Voices at the Quincentennial". Contact: John Whalen-Bridge, English Department, University of Southern California, Los Angeles, CA, 90089-0354.

**May 28-30 - 4th Annual Ohio Historic Preservation Conference**, Renaissance Inn, Lorain, OH. Contact: Ohio Historic Preservation Office, Ohio Historical Center, 1982 Velma Ave., Columbus, OH 43211-2497, ☎ 614 297-2470.

**June 5-6 - Mining History Association** will hold its third meeting June 5-6, 1992 in Boise, Idaho. The Program Committee for the Boise meeting invites proposals for individual papers or complete sessions. Deadline for abstracts is April 1, 1992. For further information contact: Dr. Ronald C. Brown, Department of History, Southwest Texas State University, San Marcos, Texas 78666-4616.

**June 18-21 - New England Antiquities Research Association Conference**, Brown University, Providence, RI. Theme: Americans Before Columbus.

To order a copy send \$2/copy for postage/handling to:  
AF Consultants, 6546 Haley Drive, Columbia, SC 29206.

### REQUESTS FOR INFORMATION

Within the last year we have become aware of a number of Ohio Valley burials with whom more than one projectile point "type" was interred. In one case, the individual was buried with one Buck Creek Barbed and two Cogswell points. In another instance, an early Late Woodland burial was excavated with four Chesser/Lowe Cluster points and two other projectile points that would have been classified as Brewertons if they had been found in any other context. Clearly, the classification of these particular point types, in these specific instances, requires closer scrutiny. The implications have yet to be fully explored, but we are

interested in pursuing this matter. Colleagues are asked to provide other examples of multiple projectile point types found in direct association with burials, and the absolute dates if dates are available. Please contact Charles M. Niquette, Cultural Resource Analysts, Inc., 143 Walton Avenue, Lexington, KY 40508 - ☎ 606-252-4737/ FAX (606)254-3747.

### FOR YOUR INFORMATION

Joseph Brent has been hired as data coordinator for Kentucky Heritage Council, Franklin, KY.

**Kemron**, formerly WAPORA Inc., Cincinnati, is now a wholly owned subsidiary of Kemron Environmental Services.

**Dave Bush** is the new Director of the Center for Cultural Resources Research at the University of Pennsylvania, Pittsburgh.

**Omer Call Stewart**, a well-known expert on Native American cultures, died December 31, 1991. Mr. Stewart, the first chairman of the University of Colorado Anthropology Department, retired from teaching in 1973 and was named professor emeritus. He was 83.

## CORPORATE PROFILES

**NEW SOUTH ASSOCIATES** is a professional cultural resources consulting firm dedicated to archaeological and historical compliance research in the Southeast and Caribbean. Our senior staff has more than a century of combined experience in cultural resources consulting, has produced more than 360 technical reports, and maintains excellent relations with the various state and federal review personnel and agencies of our region. Both of the firm's Principals are certified by the Society of Professional Archeologists, and our staff also includes members of the Florida, Georgia, North Carolina and South Carolina Professional Archeological Councils. New South Associates maintains close relationships with our clients as well as the regional review personnel through our corporate headquarters in Stone Mountain, Georgia, and through branch offices in Mebane, North Carolina and Irmo, South Carolina.

The firm has extensive experience in working with all branches of the federal government, in transportation and other corridor-type compliance studies, in large-scale cultural resource surveys, in performing research-oriented data recovery studies, in urban archeology, and in preservation planning and historic overview documentation. The firm's research is highly regarded at the State and Federal levels. New South Associates currently employs seven permanent MA-level Archeologists, one permanent MA-level Historian, five Assistant Archeologists, one MA-level project Archeologist, one MA-level project Architectural Historian, two permanent Graphics Specialists, and more than 20 Field and Laboratory Research Assistants. The size and experience of our staff provides us with the resources necessary to undertake projects of all magnitudes and schedule requirements. Communications regarding the firm should be addressed to the corporate office at 4889 Lewis Road, Stone Mountain, GA 30083. ☎ 404-493-7764.

## JOB ANNOUNCEMENTS

**CULTURAL RESOURCE ANALYSTS, INC.**, a growing cultural resource management firm based in Lexington, Kentucky, has immediate openings for supervisory level archeologists. The company is seeking highly motivated individuals who interact

well with clients and co-workers. Considerable field experience, demonstrated analytical ability and computer literacy are paramount. Successful applicants must demonstrate an ability to design and carry out research, to conduct field operations and laboratory analyses, and to produce professionally outstanding reports in a timely manner. The openings to be filled are full-time, salaried positions with benefits. The salaries are competitive. The company also offers a profit sharing plan to qualified employees. Interested applicants should send a letter of interest, vitae and the names and addresses of three references to: Charles M. Niquette, Cultural Resource Analysts, Inc., 143 Walton Avenue, Lexington, KY 40508, ☎ 606-252-4737.

**ARIZONA STATE UNIVERSITY** has openings for experienced field technicians for the Roosevelt Mound Study. Contact Brenda Shears, Office of Cultural Resource Management, Arizona State University, Tempe, Arizona, 85721.

**THE NATIONAL PARK SERVICE SOUTHWEST REGION** is advertising for a temporary GS-193-09 (\$25,717) Archaeologist position as part of a five-person team responsible for analysis and write-up of survey data gathered during a five-year period (1987-91) in Bandelier National Monument. For further information about this 19-month position contact Robert P. Powers, Bandelier Survey Project Director, ☎ 505-988-6778.

**UNIVERSITY OF NORTH DAKOTA**, Department of Anthropology, invites applicants for a nontenure track position of Research Archeologist (PhD) or Associate Research Archeologist (MA) to serve as principal investigator in directing a contract CRM program. Applicants must be capable of working independently on analyses of prehistoric and historic artifact classes, writing technical reports, and working with avocational volunteers. Position begins May 1, 1992. Send a letter of interest & vita by March 15, 1992 to John A. Williams, Chair, Dept. of Anthropology, UND, Box 8254, Grand Forks, ND 58202.

**THE LOWER VERDE ARCHAEOLOGICAL PROJECT** needs fieldworkers for this large-scale data recovery project. Fieldwork is scheduled in two phases over an eight-month period. Openings are available for one crew chief (\$8.50 per hour), six crew members (\$7.00), and four laborers (\$5.50). Send vitae with names and phone numbers of two to three previous supervisors to: Jeffrey A. Homburg or Steven D. Shelley, Statistical Research, Inc., PO Box 31865, Tucson, Arizona, 85751 ☎ 602-721-4309. FAX 602-298-7044.

**GRAY & PAPE, INC.**, has positions open for both prehistoric and historical archaeologists at the Principal Investigator and Field Director levels. Principal Investigator positions require minimum M.A. in anthropology or related field and thorough experience in either prehistoric or historical archaeology and cultural resources management at a supervisory level. Field Director positions require minimum B. A. in anthropology or related field and experience in field direction and report preparation of prehistoric and/or historic sites investigations. Experience in cultural resources management preferred. Competitive salaries, as well as a benefits package and profit-sharing retirement plan for qualified personnel. Send vitae to:

Gray & Pape, Inc., 1318 Main Street, Cincinnati, OH 45210.  
For information contact Marlesa Gray • 513-287-7700.

**PUBLIC HISTORY/HISTORIC PRESERVATION/ CULTURAL RESOURCES.** Contingent upon funding: Tenure track at the assistant/ associate professor rank. PhD required. Women and minorities are strongly urged to apply. Send letter of application, c.v., and unofficial graduate transcripts to History Department, Box 262, Middle Tennessee State University, Murfreesboro, TN 37132.

## EQUIPMENT SALES

### FOR SALE

Hewlett Packard 7475A Six Pen Plotter	\$500 or best offer
IBM Selectric Typewriter (Correcting Selectric III)	\$200.00 or best offer
Lietz Transit (No. 10C), tripod & stadia	\$500.00 or best offer

Walton Ave, Lexington, KY 40508 - • 606-252-4737 FAX (606)254-  
3747.

### FLOTE TECH FLOTATION

Process soil samples rapidly with high-efficiency flotation, using water flowing in a closed loop system.

- ✓ System is portable and can be used in the laboratory or at an excavation site.
- ✓ Cross contamination is eliminated by a unique sieve and screen design.
- ✓ Unit can accommodate up to a 20-liter sample.
- ✓ Flotation expenses are cut by reduced water usage and transportation costs.

2860 Division Road, Jackson, WI 53037  
• (414) 677-4825

## WORKSHOPS

THE ADVISORY COUNCIL ON HISTORIC PRESERVATION (ACHP) offers a three-day training course entitled "Introduction to Federal Projects and Historic Preservation Law", which explains the Section 106 requirements of the National Historic Preservation Act. The course will be offered in 14 regional cities between January and August 1992. For further information contact Shauna J. Holmes, Training Coordinator, ACHP, 1100 Pennsylvania Avenue, N.W., Room 803, Washington, D.C., 20004, • 202-786-0505.

BELMONT TECHNICAL COLLEGE, St. Clairsville, OH offers an associate degree program in "Building Preservation Technology." With a unique hands-on approach to preservation training, the students develop an appreciation of traditional craftsmanship, a sensitivity toward the environment and the ability to apply preservation theory in actual situations. Through their course work and individual projects, students are taught to identify, evaluate, plan and repair historic structures within the guidelines set forth by the United States Department of Interior. While many of the graduates find employment in specialized construction firms, research offices, government offices, or museums, some have chosen to become self-employed as preservation specialists. For more information about the program, or for information about job placement for a preservation specialist contact Belmont Technical College at • 614-695-9500.

## Z ENVIRONMENTAL SERVICES' NATIONAL HISTORIC PRESERVATION ACT AND THE SECTION 106 REVIEW PROCESS.

As an industry, pipeline companies currently are funding more archaeology than any other source in the United States. The work is being conducted in response to the industry's compliance responsibilities under the § 106 Review Process of the National Historic Preservation Act. However, the persons who manage these compliance responsibilities for the pipeline companies are seldom trained in archaeology or cultural resource management. Thus, there has been a need within the industry to get a better understanding of what exactly their responsibilities are, how to efficiently comply with the review process, and how to most effectively manage a cultural resource program.

In response to this need, industry representatives were invited to attend a workshop (organized by Z Environmental Services) on 23-24 January 1992, in Houston, Texas. The purpose of the workshop was to present an overview of the § 106 Review Process and other relevant federal cultural resource legislation (NAGPRA, NEPA) in the context of their specific applications to pipeline projects. The program was balanced between a

basic understanding of the federal historic preservation program and the practical applications of the program through the roles and responsibilities of the FERC, the SHPO, the applicant, and the consulting archaeologist.

Mr. Jordan E. Tannenbaum (former staff member, Advisory Council on Historic Preservation) led the participants through the Council's short course on the National Historic Preservation Act and the sequential steps of the § 106 Review Process. Building on a basic understanding of the review process, Ms. Benita Kahn (Vorys, Sater, Seymour and Pease) provided insight into FERC's requirements for compliance with the National Environmental Policy Act and how pipeline construction is certificated under NGPA and NGA. Her presentation provided an organized approach to the means by which construction can be authorized under the different acts and how to comply with applicable environmental regulations, particularly in light of FERC's recent Notice of Proposed Rulemaking for Order 555.

The roles of the federal regulatory and state review agencies were presented by Ms. Deborah Vrabel (FERC) and Dr. Kurt Carr (Pennsylvania Bureau of Historic Preservation), respectively. Ms. Vrabel's discussion covered federal environmental and historic preservation statutes (NEPA, NHPA, ARPA, AIRFA, NAGPRA), and defined the relationships between the FERC and the applicants (and their consultants) in the § 106 process. Of particular interest to the participants was her indication that a proposed Programmatic Agreement with the Advisory Council would be a hybrid with pending Order 555 and that a draft would be available, in the near future, to interested persons for review and comment. Dr. Carr provided an overview of the SHPO's role in the review process. By building on a review of archaeological research in Pennsylvania, he demonstrated first how archaeological resources were formed, identified, and evaluated under the NRHP criteria for significance. In conclusion, he explained to the participants how the SHPO reviews a project, from determining the need for Phase I survey through determination of effect and preparing MOA documents for mitigation of effect.

Dr. Joseph Schuldenrein (Geoarchaeology Research Associates) and Dr. Zak Ebeid (Panhandle Eastern Corporation) completed the program with presentations concerning "Contractors Caught in the Compliance Maze" and "Effective Management of Cultural Resource Programs", respectively. The two-day program allowed adequate time to explain the steps and tasks required to accomplish the compliance process. The program format also allowed participants to explore problems encountered in real-world situations. It was this interaction between instructors and attendees which proved to be the program's greatest value.
