STATE NEWS

Maine

The Twenty-second Annual Meeting of Maine Citizens for Historic Preservation (MCHP) will be held at the Dr. Moses Mason House of the Bethel Historical Society in Bethel, Maine, on Saturday, October 2, 1993. This year, Maine Preservation members will have the option of participating in a one-day workshop on the Care of the Historic Site that will take place at both the Mason House and the neighboring Hastings Homestead. The workshop, which is cosponsored by the National Park Service, the National Institute for the Conservation of Cultural Property, and the Bethel Historical Society, is intended for historic site administrators, professionals from small- and medium-sized museums, and individuals responsible for or interested in conservation services for historic buildings and their contents.

Registration deadline is September 22, 1993. For further information contact MCHP at ☎ 207-775-3652.

New Jersey

New Jersey's Historic Preservation Advisory Committee will be holding three regional town meetings around the state to discuss the following topics:

- Organization and Function of State Programs
- Tools/Incentives to Encourage Preservation
- Tax Incentives for Historic Preservation and the Need for Grants and Loans
- Technical Assistance and Education
- Tourism, Transportation and Other Related Preservation Issues.

Ideas presented at these meetings will provide the Historic Preservation Advisory Committee with the foundation for developing a final report and recommendations for improving the state historic preservation system.

Meeting schedule is as follows:

Tuesday, September 14, 1993
Northern Town Meeting - Paterson, NJ

Wednesday, September 22, 1993
Southern Town Meeting - Hammonton, NJ

Saturday, October 2, 1993
Central Town Meeting - Princeton, NJ

For further information contact:
Natural & Historic Resources at 609-292-3904.

New Mexico

[Adapted from *New Mexico Preservation* Vol. 10, No. 1.] The Historic Preservation Division (HPD) has been planning for some time to initiate a statewide program to monitor endangered sites. A pilot program with the San Juan Archaeological Society for monitoring the Navajo Pueblito sites in the Dinétah region of

northwestern New Mexico has been highly successful, providing an additional measure of protection for these popular and unique archaeological resources and serving as an interesting and enjoyable service project for members of the society.

In many other western states, site steward programs provide an excellent opportunity for members of the public who are interested in archaeology, and an invaluable source of assistance for land managers who are trying to protect archaeological sites on millions of acres of public lands with very small cultural resource budgets. HPD did not have sufficient personnel to devote a full-time person to recruiting and coordinating the efforts of site stewards.

This fall, Janice Hartley, the Executive Assistant to the Commissioner of Public Lands, has offered to coordinate recruiting of stewards and management of sites steward program for State Trust lands. HPD will develop the necessary training and incentive components of the program. While the program is just getting started, HPD has received expressions of interest from federal land-managing agencies about expanding the program to land under their jurisdiction as well.

Stewards in this program will receive special training in identifying, recording, and monitoring the condition of archaeological sites. They will also receive a newsletter about the program and the activities of other stewards. HPD is also considering offering a special session during their annual conference for site stewards to report on their work, share information and experiences, and to receive additional training in archaeological topics.

For more information about the site steward program contact Jan Hartley at 505-827-5763. Members of the professional archaeology community willing to work with HDP on training and assisting site stewards in their local community should contact Lynne Sabastian at 505-827-6320.

Texas

[Reprinted from *News & Views*, Vol. 5, No. 2.] After more than 20 years at Southern Methodist University, the Archaeology Research Program (ARP) has a new home. Citing lack of faculty interest within the Department of Anthropology as the primary motivation for its decision, the SMU Administration announced last fall that the University planned to divest itself of ARP and discontinue its involvement with contract archaeology.

Following a lengthy negotiation process, SMU agreed to transfer ARP and the Program's ongoing projects to Mercyhurst College, which is located in Erie, Pennsylvania. Dr. J.M. Adovasio, Executive Director of ARP for 2.5 years, is also Director of the Mercyhurst Archaeological Institute. Discussions are ongoing between representatives of Mercyhurst and SMU regarding a proposed affiliation between ARP and SMU's Department of Anthropology, which would provide SMU students with continued opportunities for practical field training and access to research topics in cultural resource management and North American archaeology.

Archaeological Research Program is now located in DeSoto, Texas, where it will function as the Texas-based Western Division of the Mercyhurst Archeological Institute under the direction of J. M. Adovasio and Kevin Shaunessy.

The new address is:

Archaeological Research Program
227 North Beckley
DeSoto, TX 75115-5225
☎ 214-230-0597.

New Telephone Numbers For Reviewers

The Texas Historic Commission has installed a new telephone system. Each employee now has a personal telephone number with a direct line and an answering machine. The old numbers for each department are still operational—they will connect you with a secretary. The direct lines for reviewers at the Department of Antiquities Protection are as follows:

Barto Arnold	512-463-5316
Nancy Kenmotsu	512-463-5864
Tim Pertula	512-463-5866
Bill Martin	512-463-5867
Mark Denton	512-463-5711
Sergio Iruegas	512-463-5419
Kathleen McLaughlin	512-463-5865

FOR YOUR INFORMATION

Audrey Noel Hume, renowned archaeological curator with the Colonial Williamsburg Foundation, died August 21, 1993, in Williamsburg, Virginia. A student of Sir Mortimer Wheeler at London's Institute of Archeology, Audrey came to the United States in 1957 to accept a position with Colonial Williamsburg's Department of Archaeology. In addition to numerous publications in archaeology, including the notable *Archaeology and the Colonial Gardener* (1974), Audrey was an avid and accomplished herpetologist who earlier published *Tortoises, Terrapins, and Turtles* (1953) and *My Family of Reptiles* (1955). Audrey, who had chaired the Colonial Williamsburg Taverns Committee, was memorialized recently by her husband, Ivor Noel Hume, at Shields Tavern in the historic district of that city. She will be sorely missed by those who were touched by her wisdom and compassion.

CALL FOR PAPERS

Archaeological Chemistry Symposium to be held at the

American Chemical Society
National Meeting

(Under sponsorship of the Subdivision of Archaeological Chemistry, Division of the History of Chemistry, ACS.)

Anaheim, California
April 2-7, 1995

FIRST CALL FOR PAPERS

Major Areas of Interest:

- Bone Dating
- Artifact Dating
- Archaeology of Genetic Material
- Peopling of the New World

For further information contact:

Mary Virginia Orna
Department of Chemistry
College of New Rochelle
New Rochelle, NY 10805
☎ 914-654-5302
FAX 914-654-5387

PUBLISHED MONTHLY BY GRAY & PAPE, INC.

Managing Editor: W. Kevin Pape

Newsletter Editor: E. Jeanne Harris

Graphics Editor: Cathy Cunningham

Copy Editor: Marlesa A. Gray

Editorial address:

The Grapevine Newsletter
1318 Main Street
Cincinnati, OH 45210.

The Society for American Archaeology's committee on public education is soliciting articles for its quarterly newsletter, *Archaeology and Public Education*. The articles, maximum two pages, should address unique public programs, exhibits, methods, and related issues. Submit articles to Phyllis Messenger, 18710 Highland Avenue, Deephaven, MN 55391-3133, ☎ 612-475-9149. The society's works subcommittee is soliciting proposals for how-to workshops geared toward museum educators, teachers, and archaeologists on topics such as interactive exhibits, graphic arts, community involvement in public education, and publicity. Those interested in putting together a workshop should contact:

Nan McNutt
PO Box 295
Petersburg, AK 99833
☎ 907-772-4809.

◆ PUBLICATIONS

Understanding the Anasazi of Mesa Verde and Hovenweep, edited by David G. Noble, \$6.95, available through Ancient City Press, PO Box 5401, Santa Fe, NM 87501, ☎ 505-982-8195. This work is a compilation of five articles on two of the most famous Southwestern archaeological sites.

This easy-to-understand volume is well organized and gives a credible account of the prehistory of the Mesa Verde cliff dwellings and the ruins of Hovenweep. It provides an introduction to these sites and is suggested reading for those touring the National Parks of the Four Corners area.

The Archaeology of 17th Century Virginia, edited by Theodore R. Reinhart and Dennis J. Pogue, 412 pp., \$15.00 plus \$2.00 postage and handling. Published by the Archeological Society of Virginia, Special Publication No. 30, PO Box 340, Courtland, VA 23837.

This new volume in the Archaeology of Virginia series contains the contributions of ten noted authors, with a foreword by Theodore R. Reinhart and preface by John L. Cotter.

Under Every Roof: A Kid's Style and Field Guide to the Architecture of American Houses, by Patricia Brown Glenn, illustrated by Joe Stites. Individual copies may be ordered for \$16.95 plus \$4 shipping and handling from The Preservation Press, 1785 Massachusetts Avenue NW, Washington, D.C. 20036; ☎ 202-673-4058 or 1-800-766-6847.

This publication is a colorful, informative, and amusing guidebook to help parents and children understand the architecture of American Houses. Full of dozens of vivid, full-color illustrations and lively text, *Under Every Roof* explains how housing styles were formed and preserved throughout history.

Featuring more than 60 houses from more than 30 states, *Under Every Roof* visits historical places such as the family homestead of Laura Ingalls Wilder, Jefferson's Monticello, Paul Revere's house in Boston, and even the White House. Also included is a pictorial field guide enabling parents and children to recognize their own house style, as well as houses in their neighborhood.

◆ REQUESTS FOR INFORMATION

The Education Resource Forum was established in 1990 by the Society for American Archaeology as a reference collection of archaeological educational materials and books. Additional materials are being sought to incorporate into the forum. Museum educators who have developed teaching aids that they are willing to share with other educators or who would like to recommend commercially available products, should contact K.C. Smith, Florida Department of State, Museum of Florida History, R.A. Gray Bldg., Tallahassee, FL 32399-0250, ☎ 904-487-3711.

ACPAC NEWSLETTER A MUST FOR REPATRIATION INFORMATION

[Reprinted from *CRM News & Views*, Vol. 5, No.2.] Those of us interested in keeping abreast of the repatriation problem would do well to subscribe to the newsletter of the American Committee for Preservation of Archaeological Collections (ACPAC Newsletter). The newsletter includes reports on cases across the country in which archaeological collections are being destroyed in the name of Native American religious freedom. It is most enlightening to learn of the restrictions placed on our colleagues in other states, restrictions that we may be able to avoid if we educate ourselves and take action. There is no dues; the newsletter is supported by voluntary contributions. To subscribe, write to:

ACPAC
PO Box 1171
Whittier, CA 90609-1171

CALENDAR OF MEETINGS

September 29-October 3 - The National Preservation Conference will be held in St. Louis, Missouri. The theme will be "The Challenge of Livable Communities: Revitalizing Urban Environments Through Historic Preservation." For information and a brochure contact: The National Trust, 1785 Massachusetts Ave. NW, Washington, DC 20036, ☎ 800-937-6847.

September 30-October 2 - 1st Rocky Mountain Anthropology Conference will be held at the Virginian Saloon and Conference Center, Jackson, Wyoming. This year's theme is: *Human Use of High Elevation Environments*. For information contact: Michael D. Metcalf, Metcalf Archaeological Consultants, PO Box 899, Eagle, CO 81631, ☎ 303-328-6244. Local Arrangements: Jamie Schoen, Bridger/Teton National Forest, PO Box 1888, Jackson, Wyoming 83001, ☎ 307-739-5523.

November 3-6 - Southeastern Archaeological Conference (SEAC) will be held at the Radisson Plaza Hotel, in Raleigh, North Carolina. For more information contact: Mark A. Mathis, Office of State Archaeology, 109 East Jones Street, Raleigh, NC 27601-3120, ☎ 919-962-6574, FAX 919-962-1613.

November 4-7 - American Society for Ethnohistory will hold its annual conference at Indiana University Memorial Union, Bloomington, Indiana. For further information contact: Douglas R. Parks or R. David Edmunds, American Indian Studies Research Institute, Indiana University, 422 N. Indiana Ave., Bloomington, IN 47405, ☎ 812-855-4086.

January 5-9 - Annual Meeting of the Society for Historic and Underwater Archaeology, Hotel Vancouver, Vancouver, BC, Canada. Contact: David V. Burley, Department of Archaeology, Simon Fraser University, Burnaby, BC V5A 1S6, Canada.

If you have a meeting you would like to include on our calendar, The Grapevine will be glad to list it for you. Please remember to submit your listing by the 10th of each month.

THE NATIONAL REGISTER & ARCHAEOLOGICAL SITES

Archaeological Sites and the National Register of Historic Places: A Poorly Represented Class of Historic Resources

John H. Sprinkle, Jr.
Louis Berger & Associates, Inc.
Washington, D.C.

For six months in 1992-1993, I had the opportunity to serve under contract with the National Conference of State Historic Preservation Officers as the Acting Archeologist for the National Register of Historic Places in Washington, D.C. The Register's staff archeologist, Janet Townsend, was on a one-year assignment with the Civil War Sites Congressional Commission. Donna Seifert (John Milner Associates, Inc.)

also served as Acting Archeologist for 6 months. During our tenure Donna and I both learned a great deal about the National Register, the National Park Service, and the federal perspective on historic preservation. And in return, I believe that the National Register staff, which is made up primarily of historians and architectural historians, garnered a better appreciation of how archeology is practiced in the "real world" of cultural resource management.

I had three primary tasks while at the NRHP: 1) review archeological property nominations; 2) prepare National Register Bulletin 36: Guidelines for Evaluating and Registering Historical Archeological Sites and Districts for publication; and 3) investigate why archeological sites are so under-represented in the National Register. I am pleased to report that Bulletin 36 will be published later this year.

First of all some facts about archeological sites and the National Register. Archeological sites (that is, sites eligible under Criterion D) make up less than 10 percent of the over 60,000 properties listed on the National Register. Why? From a survey of SHPO offices I identified 5 major reasons why archeological properties are not listed on the National Register.

1. There are no "practical" benefits from the registration of archeological sites, in terms of incentives for the increased preservation of below-ground properties. In fact, the Register has a untapped potential as a research, planning, and educational tool for comparative or regional studies. For example, when evaluating a French and Indian War fortification in Virginia, would it not help to know that there are only 163 eighteenth century fortifications listed on the National Register and that 21 are located in Virginia? However, without the nomination of important sites, the usefulness of the Register as a national data base for important archeological sites is compromised. Should not a National Register nomination simply be an archeological site form for important sites?

2. The actual and perceived difficulties in the registration process (at both the state and federal levels) deters the preparation of nominations. In my experience, both reviewing and completing nominations, half the problem with the process is the fact that archeologists are rarely required to complete nominations. Across 15 states in my 5 years with Louis Berger, I have worked on only 5 nominations. With the advent of a computer-resident nomination form and with the eventual availability of the Integrated Preservation Software from the National Park Service, nominations should become a simple matter of cut and paste on the computer.

3. Many SHPOs and FPOs appear to be openly discouraging archeological nominations because of bad experiences in the past with the nomination process. Without the support of the state offices and federal agencies, archeological sites will not be nominated. And yet, many of the examples of difficulties with registration cited by the state offices date from the mid-1980s. For SHPOs, the simplest way to encourage nominations is to require that nomination forms be completed at the conclusion of Phase II evaluation studies on archeological sites that may be subject to long-term

management. In an effort to address concerns about the nomination process, the Register maintains an extensive publication program. In addition to Bulletin 36, the Register has recently released guidance on the registration of battlefields (Bulletin 40), cemeteries and burial places (Bulletin 41), and mining sites (Bulletin 42). Bulletin 43: Defining Boundaries for National Register Properties by Donna Seifert is in press.

4. Information requirements for the registration of archeological sites are more stringent, expensive, and time-consuming than for architectural properties. Although archeology is more labor intensive--and thus more satisfying--it is important to realize that archeological properties can be nominated to the Register with only limited amounts of excavated data. In a way, all it takes is one good feature to demonstrate information potential. Before coming to the Register, Janet Townsend listed a Civil War campsite in Virginia based on surface observations alone! There is a substantial difference between an excavation designed to yield a National Register nomination and the typical Phase II evaluation/testing program, the purpose of which is to identify all the important cultural features at a site in preparation for data recovery excavations. Moreover, I would argue that CRM studies have produced a vast body of archeological information that could easily result in numerous listed properties in every state. Perhaps it is time to enlist the assistance of the avocational community in the preparation of National Register nominations.

5. Eligibility for the National Register is sufficient for Section 106 compliance. The Advisory Council on Historic Preservation's ruling that properties considered eligible under Criterion D can be granted a "no adverse effect through data recovery" decision is one of the major deterrents to the registration of archeological sites. The National Register staff is concerned with the perception among archeologists that Criterion D is a fourth-class criteria. Thus, one of the primary goals of National Register Bulletin 36 is to reinforce the principle that, in addition to Criterion D, archeological properties should be evaluated under Criteria A, B, and C.

In sum, as the only national database of important archeological sites, the National Register of Historic Places could become an important research, planning, and educational tool for archeologists across the country. However, this goal will only be met if the professional archeological community endeavors to strengthen the representation of archeological properties within the Register. For further information, contact Janet Townsend at 202-343-9541 or write to: National Register of Historic Places, Interagency Resources Division, National Park Service, U.S. Department of the Interior, P.O. Box 37127, Washington, D.C. 20013-7127.

JOB ANNOUNCEMENTS

PRINCIPAL INVESTIGATOR -- Gray & Pape, Inc., has an immediate position open for a Principal Investigator, specializing in prehistoric archaeology of the Midwest and/or Mid-Atlantic. An M.A. in Anthropology and previous

experience in cultural resource management (CRM) supervision at the Principal Investigator-level, including an ability to assess resource significance according to federal and state guidelines, is required. In addition to expertise in prehistoric archaeology, this person must have sufficient knowledge of historic archaeology to be able to evaluate historic resources at the Phase I level of investigation. The ability to write clear, concise, and thorough CRM technical reports without extensive editing is required, as is the ability to manage multiple projects simultaneously. This person will also be asked to assist in the preparation of proposals and in marketing. Communication skills and an ability to effectively supervise people are a must. Knowledge of WordPerfect is essential; familiarity with database, spreadsheet, Geographic Information Systems (GIS), and CADD applications is preferred. Other skills that will be given serious consideration include knowledge of geomorphology, prehistoric artifact analysis, and/or faunal/floral analysis. Gray & Pape, Inc., offers a competitive pay and benefits package, including paid holidays, paid vacation and sick leave, and health and disability insurance. After one year of employment, regular employees are eligible for a profit-sharing retirement plan. Send a current resume, three references from persons in the CRM field, and an example of recent CRM technical writing (not to be returned) to Gray & Pape, Inc., 1318 Main Street, Cincinnati, Ohio 45210. An Equal Opportunity Employer.

Archaeological and Historical Consultants, Inc., (A&HC) is accepting applications for the position of Principal Investigator. Responsibilities include the management of all aspects of archaeological CRM projects, including coordination with clients and agencies, supervision of field teams, analysis and interpretation of archaeological data, and preparation of proposals and technical reports. Requirements include an M.A. (Ph.D. preferred) in anthropology, archaeology, or a closely related field, at least one year of experience in the supervision of archaeological fieldwork, and a demonstrated ability to produce quality reports in a timely fashion. Knowledge of Mid-Western, Eastern, and/or Northeastern U.S. prehistoric or historic archaeology preferred. Competitive salary and benefits package are offered, including health insurance and retirement plan. A&HC is located in central Pennsylvania, near State College and the Pennsylvania State University. Submit vita, letter of application, and references to: Dr. David Rue, Program Manager, Archaeological and Historical Consultants, Inc., PO Box 482, Centre Hall, PA 16828; ☎ 814-364-2135. EOE.

Note: Position is available immediately, and will be closed when filled.

ARCHAEOLOGIST - Brockington and Associates, Inc. has an opening for a team-oriented, full-time archaeologist in the Southeast United States. Candidates must have at least a M.A. in anthropology and previous experience in cultural resource management. Excellent writing and other communication skills are required. We offer competitive compensation and benefits. Send your resume and samples of your writing to Attn: Archaeologist, Brockington and Associates, Inc., 5980 Unity Drive, Suite A, Norcross, GA 30071. An Equal Opportunity Employer.

ARCHAEOLOGIST - Joint position (.5/.5), Southern Oregon Historical Society and Southern Oregon State College. Full-time faculty position for teaching, research, program development focusing on both the history and prehistory of southern Oregon. Responsibilities include development, coordination, and supervision of field projects; research and analysis; publication; development and administration of regional archaeology program. Normal full-time faculty benefits, including health insurance, retirement, sabbatical leave, etc. Full-time, 12-month position being funded for a two-year trial period. With final approval of position after two years, position will be readvertised and full-scale search conducted. Occupant eligible for resubmission and tenure if selected. Ph.D., New World Archaeology required; concentration in Western states desirable. Salary range depends on qualification. Cover letter, resume, three professional references by October 18 to Joy Dunn, Programs Director, Southern Oregon Historical Society, 106 N. Central Ave., Medford, OR 97501. EEOC/AAUP guidelines.

As part of the **National Trust's Midwest Flood Response Program** a number of new temporary positions are available. The positions were posted August 26th and must be posted for ten days prior to offer to hire. Due to the emergency nature of this program, the Trust hopes to fill these positions with qualified people as soon as possible. The following is a list of position titles and duration of the appointments if known.

<u>Title</u>	<u>Duration of Appointment</u>
Grants Administrator	1 year
Program Manager	1 year
Field Representatives	3-9 months
Program Assistant	1 year
Program Coordinator	
Administrative Assistant

ARCHAEOLOGICAL EQUIPMENT FOR SALE OR RENT

ARCHAEOLOGICAL SOIL FLOTATION DEVICE

These flotation devices are perfect for recovering the small artifact, floral and faunal remains that go right through your screens. In use throughout the world, they are built largely of plastic for lightweight durability. They can be operated using any standard garden hose. A single operator can process hundreds of liters of soil per day. The device comes fully assembled and complete with instruction manual, bung tool, one heavy fraction collector, and one light fraction collector. Two sizes are available: 50 gallon (\$350.00) and 30 gallon (\$350.00) capacity. Also available are a Bucket Flotation System, Finder Probes, and extra heavy- & light-fraction collectors. For further details and free brochure contact: William Sandy, RR 3, Box 120, Newton, NJ 07860
