Federal Preservation Forum

The Federal Preservation Forum (FPF) is an active, non-profit organization founded in 1990 by a group of people interested in improving federal historic preservation programs. The FPF promotes constructive dialogue among participants in these programs. The FPF seeks to improve communication and cooperation between field personnel implementing programs and the policy-making personnel in the head offices. Over the last few years, the FPF has grown, and its activities have expanded.

The FPF membership includes federal employees, state agency personnel, university staff, and members of the private sector. Participants in federal preservation programs include the Advisory Council on Historic Preservation, the National Conference of State Historic Preservation Officers, the National Trust for Historic Preservation, Federal Preservation Officers, and other groups and individuals.

The FPF holds its annual meeting each fall. At the

CRM Trade Association Is a Go!

On Thursday afternoon, January 5, 1995, an informal discussion group on the formation of a CRM trade association met during the annual Society for Historical Archaeology (SHA) conference in Washington, DC. The discussion meeting was used to update those interested parties and those individuals who did not attend the initial organizational meeting held last November in Lexington, KY, and to get input from attendees on mutual concerns about the CRM industry and how the trade association should develop from here. Much concern was expressed about the direction Congress is taking with regard to unfunded or under-funded federal mandates for the states

(such as SHPO programs), the apparent attack on NEPA and federal regulations generally, and zero-based budgets. Loretta Neumann, lobbyist for the SHA and SAA, and co-author of much of the preservation legislation currently in place, was especially pessimistic. Tom King spoke eloquently to the need to move quickly to organize an association, given the current political situation. Attendees were invited to participate in the steering committee meeting which followed the discussion group.

The steering committee meeting was attended by Loretta Neumann and Kathleen Schamel (CEHP), Deborah Cox (Public

Federal Preservation Forum

..continued from page 1

meetings, members share information on how to improve federal programs. Meetings are held in a different city every year.

Further communication is fostered by the newsletter, which is distributed three times a year. Other FPF gatherings occur at the annual meetings of other organizations involved in historic preservation activities, including the Society for Historical Archaeology and the Society for American Archaeology.

The FPF has had an impact on several recent issues confronting the historic preservation movement in the United States. Recent work includes simplification of the 36 CFR Part 800 procedures and federal partnerships on Native American Graves Protection and Repatriation Act issues. Currently the FPF is working on developing electronic communication capabilities for FPF members, policy initiatives on sharing of professionals across agencies, and developing liaisons with the SAA for improved federal employee representation.

Anyone with an interest in federal historic preservation programs may join the FPF and participate in its activities. In order to be a voting member, you must be employed directly by the federal government. For more information, contact FPF, PO Box 18386, Washington, DC 20036.

State News

Indiana

[Reprinted from *Federal Archeology*, Volume 7, Number 2.]

On March 7, 1994, the Supreme Court of Indiana affirmed a determination by two lower courts that the Indiana Historic Preservation and Archeology Act applies to private property. The case was decided in *Whitacre v. State*, 629 N.E.2d (Indiana 1994), affg 619 N.E.2d 605 (Indiana App. 1993).

In 1982, Robert Whitacre and his wife discovered a Hopewell Indian site (c. AD 150) on a Dearborn County farm. After purchasing the property, Whitacre asked an archaeologist at the Indiana Department of Natural Resources whether he needed a permit to excavate.

He was told that he would need a permit as well as an approved plan. When Whitacre sought a judgement from the Dearborn County Court that the department did not have authority over private property, the court found for the department.

Whitacre took his case to the Indiana Court of Appeals, which, in affirming the lower decision, cited a state supreme court opinion that preserving archaeological sites is within the state government's legitimate interests. The appeals court found that the legislature was empowered to relegate its authority

over private sites to the Department of Natural Resources.

The court said that in ascertaining the legislature's intent, it reads a law as a whole, attempting to effect all its provisions. The court concluded that the Historic Preservation and Archeology Act would be superfluous unless the legislature had intended to authorize the state to oversee sites on private property.

Whitacre took the case to the state supreme court, which affirmed the earlier findings. Consequently, the act's applicability to private property is now the law throughout Indiana.

Ohio

On November 28, 1994, the board of trustees of the Cincinnati Historical Society (CHS) voted to merge with the Cincinnati Museum of Natural History (CMNH). The new entity will be named The Cincinnati Museum Center for Natural and Cultural History and Science, or "Museum Center" for short. The decision to merge was made following a succession of operating deficits for both organizations.

While news that the nation's second oldest historical society west of the Alleghenies (established in 1831) is about to be extinguished is disturbing, the picture is not entirely bleak. According to CHS Director Gale Peterson, the mission statement of the new organization retains the "statements of purpose" for both CHS and CMNH. The CHS Library will continue to exist under the same name, and \$2 million of the Society's \$3.9 million endowment will be reserved to support a portion of the library's costs.

CHS and CMNH have had a collaborative relationship extending back for more than a decade. Together they participated in the renovation of Cincinnati's famed Art Deco-style Union Terminal, which houses both organizations and is now known as the Museum Center.

Trade Association*.. continued from page 1*

Archeology Laboratory), Chuck Niquette (Cultural Resource Analysts), Mike Polk (Sagebrush Archaeological Consultants), David Ketz (The 106 Group), Dan Roberts (John Milner Associates), Tom Wheaton (New South Associates), and David Heisler (Computer Services Corporation).

The bids for a feasibility study were briefly discussed. Two bids had been submitted: CEHP's bid was withdrawn and the Host Communication bid was \$12,000, plus an unknown additional amount to help get the association up and running. The steering committee decided that we already know what we need to get started, and the feasibility study was shelved. It was further decided to go ahead with incorporation. With the current climate in Congress, the apparent enthusiasm among attendees and others who have been contacted, and no particular reason to wait any longer, there is no time like the present to get started.

Therefore, the steering committee is scheduled to meet on February 4-5, 1995, to draw up bylaws, an initial budget, membership categories, and dues. A lawyer has already been chosen to draft bylaws, to incorporate, and to obtain tax exempt status. The bylaws and other issues will be decided by the steering committee, but these decisions will be based on the information submitted in the questionnaires of persons donating to the trade association's formation. To be counted you need to submit your contribution and a \$50 donation. We still intend, and will make every effort, to be inclusive of all the CRM disciplines and all regions of the country.

Notes from the Editor..**Archsite**

We regret that the article on Archsite, the US Forest Service's Archeology Site Assessment Software, was withdrawn due to public affairs constraints.

Corporate Subscribers' Survey

Two years ago *The Grapevine* organized and reported a corporate subscribers survey. After several requests we are planning to conduct this survey again. The previous survey questionnaire was sent to CRM firms throughout the country. To protect the anonymity of participants, the completed questionnaire surveys were sent (in unmarked envelopes) to an impartial party for tabulation. Ellen Armbruster, FERC archaeologist, tabulated and reported the results of the 1993 survey, and has graciously agreed to undertake this task once more.

In the next month we will be reformatting the previous survey format, making the database more comparable. If anyone has suggestions for the next survey, please feel free to pass them on to us.

For Your Information**Society for Industrial Archeology
Moves to Michigan**

Due to an increasing space crunch, the Society for Industrial Archeology (SIA) decided to find another institutional home. After considerable deliberation and solicitation of proposals from several institutions, the Board of Directors voted to shift the institutional base to Michigan Technological University in Houghton. The new address for SIA is: Society for Industrial Archeology, Department of Social Sciences, Michigan Technological University, 1400 Townsend Drive, Houghton, MI 449931-1295, ☎ 906-487-2113, FAX 906-487-2468, e-mail to SIA/HQ, c/o Patrick Martin: pem-194@MTU.edu.

! Attention !**All Archaeological Lab Personnel**

Lab work is as crucial a part as any other aspect of the archaeological process, but it's the part that is most often scrimped on, overlooked, and undervalued. We are interested in organizing an informal group of all those people whose work entails the processing, conservation, storage, and cataloging/analysis of artifacts, and the maintenance of lab and field equipment. It is our desire to share our experiences, information, and procedures. We are interested in forming a network of archaeological lab people so as to make our jobs easier and our training more complete, as well as to meet with those who have similar work

demands and interests. We hope to meet informally first at conferences, and eventually put out some sort of newsletter that will answer questions and describe new forms of analysis and procedures that we can all benefit from and use.

If you work in an archaeological lab, and are interested in joining this network, please contact Sharla Azizi, Louis Berger and Associates, Inc., 100 Halsted Street, East Orange, NJ 07019, FAX 201-6778-3427.

CEHP's New Office

Conservation, Environment & Historic Preservation, Inc., has a new address. In the heart of downtown Washington, DC, CEHP's new office is located at 1627 K Street NW, Suite 300, Washington, DC 20006, ☎ 202-293-1774, Fax 202-293-1782, e-mail CEHP@MciMail.com.

Call for Papers

Mining History Association

The sixth annual meeting of the Mining History Association will be held June 2-3, 1995, in Nevada City, California. The Program Committee invites proposals for individual papers or complete sessions (including chair and discussant) on any topic or aspect of mining history.

Sessions normally include two or three papers for twenty minutes each. There are no geographical or temporal limitations.

Proposals should include an abstract (one page) for each paper, plus biographical information about each participant. Please send proposals to the Program Committee chair by March 1, 1995:

Field Tech Positions

Field technician and crew
chief positions may become
available in early 1995 for a Corps
of Engineers-sponsored major
archaeological survey in the Great
Bend region of the Red River.
This is in the area of a number of
interesting Caddoan sites
including the Crenshaw Site,
Spirit Lake area, Battle Mound,
etc. For further information
contact Dr. David B. Kelley,
Coastal Environments, Inc., Baton

Rouge, LA 70802, Fax 504-383-
7925.

Maryland Historic Trust

Chief of Archaeological Services

The Maryland Archaeological
Conservation (MAC) lab of the
Jefferson Patterson Park and
Museum is seeking a senior-level
Chief of Archaeological Services
to administer the research,
conservation, and collection
management programs and
facility development of this new
statewide services facility. Duties
include setting priorities and
budgets for three programs;
implementation of collections
policies, procedures, loans, and
acquisitions; management of over
four million archaeological
artifacts from across the state;
scheduling support services,
educational programs and
collection care; fundraising; and
facility management and
equipment and supplies
acquisitions. Candidates must
have a minimum of five years of
demonstrated management
experience in archaeological
research, collections management,
and conservation. Experience
preferred in fundraising, budget
administration, procurement, data
base management, and working
with professional archaeologists
and conservators. Must have a
PhD in archaeology (history or
anthropology basis), museum
studies, or collections
management. Up to two years of
management experience can be
substituted for educational
requirements. This is a
permanent, unclassified state
position with benefits with a
salary range of \$36,167 to \$47,508.
Send letter of interest, resume,
and three references to : Wayne E.
Clark, Jefferson Patterson Park
and Museum, 10515 Mackall
Road, St Leonard, MD 20685.

Closing Date January 31, 1995.
EEO.

Archaeology Collections Manager

The Maryland Archaeological
Conservation (MAC) lab of the
Jefferson Patterson Park and
Museum is seeking an
experienced archaeology
collections manager to administer
the care and curation of over four
million artifacts in the statewide
collections. Duties include
computerization of collections
inventory; condition reports,
documentation and upgrade of
collection care; collections records
upgrade; loan-in and loan-out
agreements; collections acquisition
and deaccessioning; pest manage-
ment, emergency procedures,
collection research; fundraising;
volunteer, intern and staff
training; public presentation; and
move of collection into the MAC
lab. Must have a Masters in
anthropology, history, museum
studies, or collections
management with an archaeo-
logical emphasis and five years of
experience in managing archaeo-
logical collections. Up to two
years of experience may be sub-
stituted for college experience.
This is a permanent, unclassified
state position with benefits with a
salary range of \$28,781 to \$37,000.
Send letter of interest, resume,
and three references to : Wayne E.
Clark, Jefferson Patterson Park
and Museum, 10515 Mackall
Road, St Leonard, MD 20685.
Closing Date January 31, 1995
EEO.

Southwestern Louisiana Regional Archaeologist

Regional Archaeology
Program of Louisiana seeks a

logist for a joint program of the
University of Southwestern
Louisiana and the Louisiana

...continued on page 8

MICHAEL BAKER, JR., INC.

MICHAEL BAKER, JR., INC., a leader in engineering, planning and design consulting services, is seeking qualified candidates for the following positions in the Pittsburgh office of our Cultural Resources Section:

TECHNICAL MANAGER

Qualifications include an advanced degree in anthropology, archaeology, history, or historic preservation; five to seven years administrative experience with a cultural resources firm or program; strong business/marketing background; strong personnel management and communication skills; familiarity with cultural resource management report, budget, and proposal preparation; ability to implement the Secretary of the Interior's Standards for Historic Preservation; knowledge of cultural resource management and historic preservation laws and procedures; and proven ability to attract new clients and business.

BUSINESS MANAGER

Qualifications include a B.S. in Business Administration or related field, with a strong background in project accounting in a team environment; M.B.A. preferred depending on prior experience; two to three years experience preferred in the areas of cultural resources, historic preservation, environmental sciences, and/or planning; extensive experience in project accounting, marketing, proposal and budget preparation; good oral/written communications skills and familiarity with current business software applications desired.

Please respond via resume by January 15, 1995, to:

Michael Baker, Jr., Inc.
PO Box 12259
Pittsburgh, PA 15231

An equal opportunity employer promoting a non-smoking and drug-free workplace.

Calendar of Meetings

March 9-12, 1995 - Central States Anthropological Society will hold its 72nd annual meeting in Indianapolis, IN. Contact: Larry Breitborde, Department of Anthropology, Beloit College, Beloit, WI 53511; ☎ 608-363-2500.

March 11, 1995 - Upper Paleolithic Image and Symbol: Beyond Art, hosted by the California Academy of Sciences' Wattis Symposium in San Francisco, CA. Contact: Deborah Stratmann, Department of Anthropology, CA Academy of Sciences, Golden Gate Park, San Francisco, CA 94118; FAX 415-750-7346; e-mail DStratmann@calacademy.org.

March 15-17, 1995 - Society for Ethnobiology - will hold its 18th annual conference in Tucson, AZ. Theme of this year's conference is "Culture and Biological Diversity: Past, Present, and Future." Contact Suzanne K. Fish, Arizona State Museum, University of Arizona, Tucson, AZ 85721.

March 23-25, 1995 - Alaska Anthropological Association will hold its 22nd annual meeting in Anchorage, AK. Deadlines

for abstracts is January 20, 1995. Contact Ken Pratt, Bureau of Indian Affairs, ANCSA Office, 1675 C Street, Suite 230, Anchorage, AK 99501-5198; 907-271-3695; FAX 907-271-4083.

March 31-April 1, 1995 - Studies in Culture Contact: Interaction, Culture Change and Archaeology will hold its 12th CAI Visiting Scholar's Conference in Carbondale, IL. Contact James G. Cusick, Center for Archaeological Investigations, Southern Illinois University, Carbondale, IL 62901-4527; ☎ 618-453-5057; FAX 618-53-3253.

April 19-21, 1995 - Southern Anthropological Society will hold its annual meeting in Raleigh, NC. This year's theme is "Applying Anthropology in the South." Deadline for abstracts is February 15, 1995. Contact: Kate Young, Anthro/Sociology Department, North Carolina State University, PO Box 8107, Raleigh, NC 27695-8107; ☎ 919-929-6306; e-mail young@server.sasw.ncsu.edu.

March 11, 1995 - Ohio Valley Urban and Historic Archaeology annual symposium will convene at the St. Clair

Memorial Hall in Greenville, Ohio. For more information, contact Kit W. Wesler, Wickliffe Mounds Research Center, PO Box 155, Wickliffe, KY 42087, ☎ 502-335-3681.

May 11-14, 1995 - Society for Industrial Archeology will hold its annual meeting in Baltimore, Maryland. For general conference information contact Dennis Zembala, Baltimore Museum of Industry, 1415 Key Hwy., Baltimore, MD 21230, ☎ 410-727-4808, FAX 410-547-6838.

June 2-3, 1995 - Mining History Association will hold its annual meeting in Nevada City, CA. For further information contact William H. Mulligan, Jr., 502-762-6571 or 502-762-2231.

June 2-4 1995 - Mid-South Archaeological Conference will be held in Jackson, Mississippi. For further information, contact Sam Brooks 601-965-5518 or Evan Peacock 601-285-3264.

If you have a meeting you would like to include on our calendar, The Grapevine will be glad to list it for you. Please remember to submit your listing by the 10th of each month.

Job Announcements

.. continued from page 5

Division of Archaeology. The person in this position will define archaeological research priorities and objectives for southwestern Louisiana within the context of surveying and recording sites, testing sites, interacting with property owners, and suggesting site preservation strategies. He/she will be responsible for sharing information about archaeology and archaeological preservation with governmental representatives and the public. Limited university teaching may be possible after the program is well established. The highly visible statewide Regional Archaeology Program has earned strong public support, and it offers a great deal of autonomy as well as the opportunity to develop research interests. This position does not involve field

work related to Section 106 of the National Historic Preservation Act. A Master's in anthropology with a specialization in archaeology is required; PhD is preferred. Completion of an archaeological study must be evidenced by a thesis, dissertation, or equivalent report. Experience in prehistoric archaeology of the coastal Southeast is desirable. Also helpful are experience in: organizing independent research, word processing, public speaking, report writing, and working with landowners. Salary is \$26,500 to start, plus travel allowance. Applications will be accepted until March 1, 1995, or until a suitable applicant is found. Send letter, vita, and names of three references to Dr. Thomas Hales Eubanks, State Archaeologist, Division of Archaeology, PO Box 44247, Baton Rouge, LA 70804 (phone 504-342-8170). EOE/AA/ADA.

Lake Tahoe Basin Management Unit of US Forest Service

The Lake Tahoe Basin Management Unit (LTBMU) of the US Forest Service is planning to fill a GS-170/190/193-09 Historian/Anthropologist/Archaeologist (interdisciplinary) position. This position works directly for the Unit's Heritage Resource Program Leader. Duties are varied and include inventory, evaluation, and providing advice on cultural resources and recommended mitigation.

Located in south Lake Tahoe, California, the LTBMU is organized and administered as a national forest, but without Ranger Districts.

For additional information, please contact Barbara Williams, Acting Heritage Resource Program Leader, ☎ 916-573-2600 or REC:R05F19A.

The Archaeology and Historic Preservation Federal Affairs Notebook

Published by CEHP Incorporated
Editors: Loretta Neumann and Kathleen Schamel

The notebook, which comes in a sturdy three-ring binder and is updated quarterly, includes:

- Updates on legislation, policies, laws, regulations, and programs
- Agency and organization actions
- Phone numbers, addresses, and contacts for Congress, federal agencies and national organizations
- Complete texts of Federal preservation laws
- Lots of "How To" information—to get official documents, communicate with Congress etc.

Whether you are a preservation advocate, professional, contractor, or educator—and whether you work in government or the private sector—this book is for you!

ARCHAEOLOGICAL SOIL FLOTATION DEVICE

These flotation devices are perfect for recovering the small artifact, floral and faunal remains that go right through your screens. In use throughout the world, they are built largely of plastic for lightweight durability. They can be operated using any standard garden hose. A single operator can process hundreds of liters of soil per day. The device comes fully assembled and complete with instruction manual, bung tool, one heavy fraction collector, and one light fraction collector. Two sizes are available: 50 gallon (\$350.00) and 30 gallon (\$350.00) capacity. Also available are a Bucket Flotation System, Finder Probes, and extra heavy & light fraction collectors. For further details and free brochure contact: William Sandy, 115 Route 519, Newton, NJ 07860
