In This Issue..

In this month's issue we have spotlighted three Internet locations:

- ☞ Preservation Online
- ☞ "Surfing West Virginia's History - on Internet"
- ☞ Links to the Past - a new NPS WWW site.

☞ There are three pages of job announcements starting on page 5.

Utah Plan to Police Anasazi Sites: Sell Them

The Utah State Office of Trust Land Administration is exploring the idea of selling select parcels of land in southern Utah that include identified Anasazi sites. The agency is mandated by Utah's Constitution to maximize the economic return from scattered sections of land, deeded to Utah at statehood, to generate revenue for the public-school system. As a solution, the Office of Trust Land Administration is considering converting 60 acres, located between Torrey and Teasdale, into a half dozen lots and selling them at auction. Deeds for these parcels would have restrictions stipulating that violations of the antiquities law will invalidate a sale, with ownership of the property reverting to the state.

Proponents of this plan think that private ownership of these properties is a way to provide extra protection for these sites. Individual landowners would be better able to police this area than the state, thus reducing the chance of plundering of the sites by

pot hunters. Adversaries think that the idea of using the presence of Indian ruins as a come-on is macabre.

The project, which may occur sometime next year, must first be approved by the Utah Division of State History, which has the responsibility for safeguarding these cultural resources. Currently, Trust Lands and History Division officials are working out deed restrictions that will govern archaeological excavations on the parcels. These restrictions would require the landowners to obtain approval on detailed mitigation plans by a professional archaeologist, prior to any excavation on these lands. Furthermore, any excavation would be supervised and reported by a professional archaeologist. Meanwhile, Trust Land's archaeologists are in the process of conducting a survey of the proposed area, recording sites for inclusion in the property description when the lands are offered.

"SURF WEST VIRGINIA'S HISTORY - ON INTERNET"

by Stan Bumgardner

[Reprinted from West Virginia Division of Culture and History Patterns. Issue 12, Fall/Winter 1995-96.]

The West Virginia State Archives and the West Virginia Library Commission have made it possible for you to surf the Internet back through history - West Virginia's history! On June 27 users of the Library Commission's InfoMine were introduced to the Welcome Page for the West Virginia History Database.

Stan Bumgardner, project director for the WV History Database, began the project as a component of the WV History Film Project in 1991. Information was gathered from around the state with the cooperation of various historical societies and collections (courthouses, libraries, private collections). This phase of the project ended in late 1993. Stan rejoined the effort in 1995. His task was to update the history project and make it accessible to the public. What better way to make it available than through the technological advances of computer systems.

With the InfoMine already offering access to the database, another more interactive component is being developed based on the Explorer program developed by Bill Theriault of Bakerton, WV. The interactive program will be available on CD-ROM. Through the efforts of the archives and the Library Commission, the database is available nationwide sooner than dreamed possible.

The database is a comprehensive historical research tool, consisting of guides to more than 100 historical repositories, as well as an 11,000-event timeline with links to full text, original documents, and images.

Teachers will have a new and more dynamic technique of conveying state, county, and local history. The database links the user to a guide to the State Archives, information about local historical societies and collections, the timeline, information about different counties, the state's journal, West Virginia History, various state and regional histories, and genealogical data.

Included in the guide to the State Archives will be "Student Projects," information commonly needed for WV history classes. The guide will provide a list of local historians with whom teachers and students can plan research projects.

Through its cross-referencing system, the timeline is an abundant source for specific information about counties, individuals, and topics. For instance, teachers could begin each class with a "This Day in History" tidbit for their respective county.

Genealogy is a fascinating method of making local history more personal by making the student part of the history. As students research their own family history and WV history in general, they will add new material to the database. This is an important facet of the project, as students and others help shape and develop what the database becomes. For the first time, teachers and students will be writing their own computerized textbook and developing source material for future teachers and students.

Comments and suggestions may be addressed to Stan Bumgardner at the West Virginia State Archives.

COSWA On The Net

A COSWA-L mailing list is operating. If you are interested, send the subscribe command: Subscribe coswa-1 <your name as you wish it, without the brackets> to: listserver@relay.doit.wisc.edu. The mailing list has the purpose of promoting the participation and recognition of women in archaeology and anthropology. The list is not formally associated with any COSWA groups (e.g., SAA, AAA).

Preservation..

..continued from page 1

Lauerman Brothers department store and rehabbed it as residential and retail space.

If you're looking for a *Forum Journal* article from years past, just search the Preserve Link library database. Starting this fall, past articles from *Preservation News* will also be included. Best of all, the library and case-study databases are full-text searchable, so you won't waste time dreaming up key words to guide your search.

Through the National Trust home page, Forum members can access other useful information. There you'll find information about Trust programs and services, a calendar of preservation-related events nationwide, a preservation resource directory, and a complete listing of Trust books and videos with ordering information.

A world of resources is at your fingertips through Preserve Link. Simply head over to the National Trust home page at <http://www.nthp.org> and type in the preview access code: **forum**. If you have any questions about the WorldWide Web site or Preserve Link, contact Sarah Dillard at (202) 673-4067, or e-mail to sdillard@nthp.org.

LINKS TO THE PAST

[Excerpts reprinted from *Federal Archaeology*. Vol. 8, No. 2. Summer 1995.]

Thanks to "Links to the Past," the new National Park Service site for cultural programs on the WorldWide Web, all you have to do is key the words "http://www.cr.nps.gov" at one of the many web gateways (such as NetScape or Mosaic) to tap into America's rich archaeological heritage. Browse landmarks, call up maps of where fluted points have been found, or learn how to volunteer for fieldwork in your area!

The concept and design for "Links" - part of a larger Park Service module that just made America Online's list of "hot new web sites" - are largely the work of three staffers from the Archaeological Assistance Division. The "Links" home page offers an array of entry points into the nation's past with clickable icons representing archaeology, history, structures, and landscapes, among others.

Most of the web paths are cross-linked, so you can explore archaeology by entering any of the portals. Clicking "History" - followed by "History in the Parks," "American Battlefield Protection Program," and "Shenandoah Valley Civil War

Sites Report" - calls up a description of the Valley's Civil War history and archaeology.

"History" also permits passage to "Landscapes," which branches to "Preservation Programs," which, in turn, provides access to "Archaeology" or "Museum Collections," featuring 100 archaeological and historical objects that can be viewed on screen, from John Wilkes Booth's derringer to Zuni pottery. Or, go directly to "Archaeology" from the web gate by keying in "http://www.cr.nps.gov/archeol.html." Here you'll find a web-adapted version of the popular *Participate in Archeology* brochure. Designed for the public as a user-friendly introduction to archaeology, *Participate* explains what archaeologists do, lists books, journals, and films on the subject, and provides a wealth of information for those who wish to take part in an excavation. Then click "Archaeological Assistance Program" for a description of how the program provides national guidance for federal archaeology, and works in cooperation with other agencies to achieve its objectives. An icon marked "NADB" acts as a gate to the National Archaeological Database, a communications network citing over 100,000 reports of archaeological investigations. NADB offers mapping capabilities to display data at state

and county levels - meaning, for example, that you can call up color vegetation maps revealing a range of archaeological information. A recent module in the database is the latest guidance on the Native American Graves Protection and Repatriation Act. NADB also provides access to other archaeology-related web sites outside the Park Service. By clicking "Internet Resources for Heritage Conservation, Historic Preservation, and Archaeology," you can tap into databases offered by ICOMOS, the University of Connecticut's ArchNet, Conservation Online, Art Source, and others.

The enthusiasm that has greeted the idea of archaeology online is evident in the fact that a mere two weeks after the dramatic discovery of cave paintings in Lascaux, France, color images of them could be called up on the Internet. With "Links to the Past," the Park Service is pushing the technology for maximum effect as well. Plans are in the works to tie "Links" to all the national parks that feature archaeology.

For more information, contact S. Terry Childs, National Park Service, Archaeology Assistance Division, P.O. Box 37127, Washington, D.C. 20013-7127, (202) 343-1141 FAX (202) 523-1547.

Conference Calendar

September 22-23, 1995 - WIND AND WATER WORKSHOP will be held in Dorthan, Alabama. This workshop focuses on protecting our built heritage against the threats of severe weather. Featured speaker will be John Leek, Contributing Editor of the Old House Journal and one of the best "building doctors" in the country. The workshop will look at practical approaches to disaster preparedness and innovative recovery techniques.

The conference will be held at Landmark Park, Highway 431, Dothan, Alabama (2.7 miles north of Ross Clark Circle). Lodging is available at the Comfort Inn of Dothan, 3593 Ross Clark Circle, N.W. (334) 793-9090; (800) 474-7298.

Registration: \$8 fee includes lunch (make all checks payable to "Landmark Park"). Deadline is September 20, 1995.

Mail or fax to: Alabama Historical Commission Wind & Water, 468 South Perry Street, Montgomery, Alabama 36130-0900; (334) 242-3184; FAX (334) 240-3477.

September 27-30 - Rocky Mountain Anthropological Conference will hold its 2nd biennial meetings at the Steamboat Sheraton, Steamboat Springs, CO. Contact: Calvin H. Jennings,

Anthropology Department, Colorado State University, Ft. Collins, CO 80523; 303-491-7360.

September 29-October 1 - Plains Indian Seminar will be held in Cody, Wyoming. This year's theme is "Art of the Plains -- Voices of the Present." Contact Lillian Turner, Buffalo Bill Historical Center, 307-587-4771.

October 7-8, 1995 - ACRA National Meeting will be held in Washington, DC. Contact: Tom Wheaton, 770-498-4155.

October 25-29, 1995 - Midwest Archaeological Conference will hold its annual meeting in Beloit, Wisconsin. Deadline for abstracts is September 1, 1995. Contact Robert Salzer, Department of Anthropology, Beloit College, 700 College, Beloit, WI 53511; 608-363-2616; FAX 608-363-2718.

November 8-11, 1995 - Southeastern Archaeological Conference will hold its annual meeting at the Hilton Hotel, Knoxville, TN. Local arrangements coordinator is Dr. Jefferson Chapman. Program Chair is Dr. Gerald Schroedl. Contact: SEAC Conference, Department of Anthropology, University of Tennessee, Knoxville, TN 37996-0720; 615-974-4408; FAX 615-974-2686.

November 15-18, 1995 - Networking the Nation with Trails - will be held in Clearwater, FL. Sponsored by Rails-to-Trails Conservancy. For a brochure or more information contact RTC at 202-797-5430.

January 3-7, 1996 - the Society for Historical Archaeology will hold the 29th Annual Conference on Historical and Underwater Archaeology in Cincinnati, OH. For more information, contact Marlesa A. Gray, general chair, at Gray & Pape, Inc., 1318 Main Street, Cincinnati, OH 45210-2314, 513-665-6707, fax 513-287-7703, e-mail 76554.3313@compuserv.com

April 10-14, 1996 - Society for American Archaeology annual meeting will be held in New Orleans, LA. Contact: Paul Fish and Suzanne Fish, program chairs at 520-621-2556; FAX 520-621-2976; e-mail archaeo@ccit.arizona.edu

If you have a meeting you would like to include on our calendar, The Grapevine will be glad to list it for you. Please remember to submit your listing by the tenth of each month.

Job Announcements

STAFF ARCHAEOLOGIST

Historic Annapolis Foundation is seeking an archaeologist to direct its laboratories and to supervise collections for the Archaeology in Annapolis program, a joint project of Historic Annapolis Foundation and the University of Maryland-College Park Department of Anthropology. Responsibilities will include supervising two laboratories, one in Annapolis and one in College Park; training and directing volunteers in cataloging historic artifacts; managing the project database; and producing site reports. The work week is divided between the two labs. In addition, the position responsibilities include collections management, preparation for summer field school, involvement with contract excavations, management of undergraduate and graduate student personnel, and administration of the project budget.

Position requires an historical archaeologist, with knowledge of historic ceramics, and a Master's degree or equivalent experience. The position is available September 15, 1995.

Please apply with a cover letter and resume by September 8, 1995 to:

Dr. Jean Russo
Historic Annapolis Foundation
18 Pinkney Street,
Annapolis, MD 21401
Ph: 410-267-7619
FAX: 410-267-6789

POSITION OPENING HISTORIC PRESERVATION SPECIALIST (ARCHAEOLOGY)

Title: Historic Preservation Specialist (Archaeology)

Location: State Museum of Pennsylvania, Third & North Streets, Harrisburg, Pennsylvania

Work Hours: 8:30 am - 5:00 pm (37.5 hours weekly), Monday-Friday

Special Requirements: Some travel necessary

Type of Position: Permanent, union, non-civil service

Salary: \$1164.75 biweekly; \$30,377 annually. Liberal benefits.

Job Requirements: Must meet 36CFR 61 qualifications: MA/MS or PhD in anthropology, archaeology, or historic archaeology or in closely related field, or BA in above fields with two years full-time experience.

Job Description: General responsibilities of this position relate to the protection of historic and prehistoric archaeological resources in the development of state and federal projects. Knowledge of state and federal preservation programs, regulations and legislation, including the Secretary of Interior's Standards for Historic Preservation is required.

Specific duties include: assist in organizing, developing, managing, preserving, and protecting Pennsylvania's historic and prehistoric archaeological resources as outlined in the State Archaeological Resource Protection Plan.

Review state and federal program requests and evaluate their effects on archaeological resources as required under state and federal legislation.

Assist in the management and collection of archaeological site survey information.

Assist state and federal agencies with the management of archaeological

resources.

Develop and review nominations for archaeological resources to the National Register of Historic Places.

Review and assist in the management of archaeological survey and planning grant projects.

Prepare and publish archaeological research reports based on data collected from surveys and other archaeological field investigations.

Prepare correspondence and write or provide other appropriate replies to inquiries about archaeological survey and preservation programs.

Enhance cooperation between the statewide amateur and professional archaeological organizations.

Perform other duties as assigned.

Contact person: Kurt W. Carr, Chief of Archaeology and Protection, Bureau for Historic Preservation, P.O. Box 1026, Harrisburg, PA 17108-1026. (717)783-8946, 783-8947.

Submit letter of intent and vita by November 1, 1995.

POSITION OPENING ARCHITECTURAL HISTORIAN

The Cultural Resource Group, Louis Berger & Associates, Inc. (LBA), solicits applications for the position of Architectural Historian in our New Jersey office.

For this position, we seek highly motivated individuals to pursue quality historical research in a Cultural Resource Management context. Responsibilities include: design and implementation of research and report/proposal preparation of Phase I (identification), II (evaluation), and III (documentation and recordation) projects.

M.A. in Architectural History, History, or Historic Preservation is required. At least one year professional experience in field survey and National Register evaluation of architectural resources, preferably in the context of Section 106 compliance, and the ability to use a 35mm camera are required. Mid-Atlantic and/or New England experience and experience in interpretation and evaluation of engineering/industrial resources highly desirable. Strong research and writing skills required; experience in write-up of investigations for CRM reports and/or publications highly desirable. Ability to work on own initiative needed.

The Architectural Historian will be stationed at LBA corporate office in East Orange, New Jersey, but will be expected to routinely travel to projects throughout the eastern U.S. Competitive salaries. Benefits include paid vacations, sick leave, and holidays; medical/dental/life/disability insurance; retirement plan and 401K. This is a full-time, permanent position. Successful applicant must be willing to relocate.

Submit vitae and references with phone numbers to Martha Bowers, Principal Architectural Historian, The Cultural Resource Group, Louis Berger and Associates, Inc., 75 Second Street, Suite 700, Needham, MA 02194-21800. Telephone number (617) 444-3330 or fax (617) 444-009. EOE.

POSITION OPENING ARCHAEOLOGIST

The Cultural Resource Group, Louis Berger & Associates, Inc. (LBA), solicits applications from archaeologists to fill position opening as Principal Investigator in our East Orange, N.J., office.

For Principal Investigator position, we seek highly motivated individuals to pursue quality archaeological research in a CRM context. PI responsibilities include: design and implementation of Phase I, II, and III field research, coordination of laboratory analysis, and report/proposal preparation.

Ph.D. or M.A. in Anthropology required, Mid-Atlantic or New England experience desirable. Prehistoric or Historic Archaeologist considered. Applicant must have strong writing ability and demonstrated project management skills. Previous experience in CRM research required. Principal Investigator will be stationed at LBA corporate office in East Orange, NJ, and be responsible for projects in New Jersey, Pennsylvania, New York, and New England. Competitive salaries. Benefits include paid vacations, sick leave, and holidays; medical/dental/life/disability insurance; retirement plan and 401K. This is a full-time, permanent position. Successful applicant must be willing to relocate.

By mail: Submit vitae and three references with phone numbers to Ms. Susan Grzybowski, Louis Berger & Associates, Inc., 100 Halsted St., P.O. Box 270, East Orange, NJ 07019-0270. Telephone (201) 678-1960, fax (201) 678-3427. EOE.

36CFR 61 Qualifications: MA/MS or PHD in Architecture, History or Architectural History or in closely related field. Or BA in above fields with two years full-time experience.

Job Description: General responsibilities of this position relate to the protection of historic and archaeological resources in the development of state and federal projects. Knowledge of state and federal preservation programs, regulations and legislation, including The Secretary of the Interior's Standards for Historic Preservation is required.

Specific duties include:

Review the effect of state and federal projects on historic resources as required under state and

federal legislation.

Coordinate the review and evaluation of historic properties under the Determination of Eligibility Process.

Provide technical assistance, information and training through field visits and monitoring on historic preservation and environmental review requirements to agencies and communities.

Assist in the development of in-house procedures and policies in the Section 106 review.

Assist in the training of state, federal and local agencies in the Section 106 process and the requirements of the History Code.

Conduct research on significant

historic preservation problems.

Perform on-site monitoring of HUD Entitlement communities which have programmatic Memoranda of Agreements.

Perform other duties as assigned.

Contact person: Kurt W. Carr, Chief of Archaeology and Protection, Bureau for Historic Preservation, P.O. Box 1026, Harrisburg, PA 17108-1026. (717)783-8946, 783-8947.

Submit letter of intent and vita by November 1, 1995.

**Principal Investigator
and
Field Director**

Archaeological and Historical Consultants, Inc. (AHC), is accepting applications for the positions of Principal Investigator (PI) and Field Director (FD). PI responsibilities include client/agency coordination, supervision of field projects, data analysis, and report/proposal preparation. Applicants for PI position should have a M.A. degree (Ph.D. preferred) with an archaeological focus, at least one year of experience in the supervision of archaeological fieldwork, and a demonstrated ability to produce quality reports in a timely fashion. Knowledge of eastern U.S. prehistory and strong specialization in lithic analysis (backed by publication record) preferred, although other specialties will be considered. FD responsibilities include supervising field crews engaged in archaeological survey and/or excavation and assisting PIs with report preparation and data analysis.

Qualifications for the FD position include a B.A. (M.A. preferred) in Anthropology/Archaeology or a closely related field, two to four years archaeological field experience, and a demonstrated ability to supervise archaeological field crews.

Both positions include competitive salary and a benefits package including health insurance and retirement plan. AHC is located in central Pennsylvania near Penn State University. Established in 1983, AHC provides archaeological and architectural history services throughout the eastern U.S. and has a full-time staff of over 35 personnel. Submit vitae, letter of application, and references to: Dr. David Rue, Program Manager, Archeological and Historical Consultants, Inc., PO Box 482, Centre Hall, Pennsylvania; 814-364-2135. EOE.

**POSITION OPENING
ARCHAEOLOGIST**

The Cultural Resource Group, Louis Berger & Associates, Inc. (LBA), solicits applications from archaeologists to fill position opening as Principal Investigator in our Washington, D.C., office.

For Principal Investigator position, we seek highly motivated individuals to pursue quality archaeological research in a CRM context. PI responsibilities include: design and implementation of Phase I, II, and III field research, coordination of laboratory analysis, and report/proposal preparation.

Ph.D. or M.A. in Anthropology required, Mid-Atlantic experience desirable. Prehistoric or Historic Archaeologist considered. Applicant must have strong writing ability and demonstrated project management skills. Previous experience in CRM research required.

Principal Investigator will be stationed at LBA branch office in Washington, D.C., and be responsible for projects in Delaware, Maryland, and Virginia. Competitive salaries. Benefits include paid vacations, sick leave, and holidays; medical/dental/life/disability insurance; retirement plan and 401K. This is a full-time, permanent position. Successful applicant must be willing to relocate.

By mail: Submit vitae and three references with phone numbers to Mr. Charles LeeDecker, Louis Berger & Associates, Inc., 1819 H Street, NW, Suite 900, Washington D.C. Telephone (202) 331-7775, fax (202) 293-0787. EOE.

**POSITION OPENING
ARCHAEOLOGIST**

The Cultural Resource Group, Louis Berger & Associates, Inc. (LBA), solicits applications from archaeologists to fill position opening as Principal Investigator in our Iowa office.

For Principal Investigator position, we seek highly motivated individuals to pursue quality archaeological research in a CRM context. PI responsibilities include: design and implementation of Phase I, II, and III field research, coordination of laboratory analysis, and report/proposal preparation.

Ph.D. or M.A. in Anthropology required, midwestern (preferred) or Plains experience desirable. Prehistoric or Historic Archaeologist considered. Applicant must have strong writing ability and demonstrated project management skills. Previous experience in CRM research required.

Principal Investigator will be stationed at LBA branch office in Marion, IA, and be responsible for projects in Iowa, Missouri, Minnesota, and Illinois. Competitive salaries. Benefits include paid vacations, sick leave, and holidays; medical/dental/life/disability insurance; retirement plan and 401K. This is a full-time, permanent position. Successful applicant must be willing to relocate.

By mail: Submit vitae and three references with phone numbers to Mr. Derrick Marcucci, Louis Berger & Associates, Inc., 950 50th Street, Marion, IA 52302-3853. Telephone (319) 373-3043, fax (319) 373-3045. EOE.

Publications

From Prehistory to the Present: Studies in Northeastern Archaeology in Honor of Bert Salwen, edited by Nan A. Rothschild and Diana diZerega Wall, published as a special issue of *Northeast Historical Archaeology* (Volumes 21-22).

Bert Salwen's eclectic interests in archaeology encompassed the diversity of the field and many of the critical changes that occurred within it throughout his long professional career. This volume dedicated to his memory, with articles written by students and colleagues, reflects the diversity of his interests. It includes fifteen articles that, together, cover the Prehistoric, Contact, and Historic periods in the Northeast, as well as such topics as cultural resource management and the role of archaeologists today in constructing the past.

Order from: Mary C. Beaudry, Editor, Department of Archaeology, Boston University, 675 Commonwealth Ave, Boston, MA 02215. Price: \$22 US or \$25 CDN (to cover the cost of the volume plus postage and handling).

ARCHAEOLOGICAL EQUIPMENT FOR SALE OR RENT

ARCHAEOLOGICAL SOIL FLOTATION DEVICE

These flotation devices are perfect for recovering the small artifact, floral and faunal remains that go right through your screens. In use throughout the world, they are built largely of plastic for lightweight durability. They can be operated using any standard garden hose. A single operator can process hundreds of liters of soil per day. The device comes fully assembled and complete with instruction manual, bung tool, one heavy fraction collector, and one light fraction collector. Two sizes are available: 50 gallon (\$350.00) and 30 gallon (\$350.00) capacity. Also available are a Bucket Flotation System, Finder Probes, and extra heavy & light fraction collectors.
