Reauthorization of the Advisory Council on Historic Preservation.

Authorization Expires September 30, 1996.

[Reprinted from Society for American Archaeology's Government Affairs Network Alert, May 13, 1996.]

Earlier this year Rep. James Hansen (R-Utah) introduced H.R. 3031, which reauthorizes the Advisory Council on Historic Preservation (Council) to receive funding up to \$5 million annually through the year 2002. If the Council is not reauthorized this year it places at risk the Council's ability to receive annual appropriations from the Congress. In March, Rep. Hansen's subcommittee on National Parks, Forests, and Lands of the House Resources Committee held a hearing on H.R. 3031, and the

subcommittee has now scheduled a markup of the bill for later in May (a markup is a committee or subcommittee meeting during which members may modify a bill by offering, debating, and voting on amendments to it).

Section 106 of the National Historic Preservation Act requires federal agencies to take into account the effects of their actions on historic resources. The Council's role in this process is to assist federal agencies in compliance with Section 106 and to ensure a balanced consideration of historic resources in agency planning and decision-making. The Section

Alliance to Preserve Pennsylvania's Archaeological Heritage

The following information was taken from various Alliance To Preserve Pennsylvania's Archaeological Heritage documents.

In January 1996 an amendment to Title 37 of the PA History Code was signed into law by Governor Ridge. Act 70 of Title 37 removed the incentive for developers to avoid cultural resources and shifted the cost of doing surveys to the Pennsylvania Historic and Museum Commission (PHMC). Under the law, developers only are required to give PHMC 90 days to complete archaeological work. That is assuming the commission has the funds to do the work.

The seriousness of this situation was brought to public attention in March when Representative Phyllis

Mundy issued a press release. In this release Rep. Mundy states "I and many of my colleagues voted for the bill because we were assured by the commission and the governor's office that the funds would be made available to protect the information these sites hold. I withdrew an amendment to the bill based on those commitments."

In the subsequent months the archaeological community in Pennsylvania organized a lobbying campaign in support of funding that would enable the PHMC to meet its new responsibilities under Act 70 legislation. A newly formed organization "Alliance to Preserve

Call for Papers

Conference Calendar

May 30-June 2, 1996 - the Society for Industrial Archeology will hold its annual meeting in Sacramento, CA. Contact: California State Railroad Museum; 916-445-7387; FAX 916-327-5655; e-mail csrmf@ns.net OR duncan_hay@nps.gov.

June 27-30, 1996 - the Association for Gravestone Studies Conference. Contact: Catherine Goodwin, 10 Longview Dr., Chelmsford, MA 01824; 508-256-6240; or Fred Oakley, 19 Hadley Place, Hadley, MA 01035; 413-584-1756.

August 7-10, 1996 - The Central Arizona Highlands: A Multi-Disciplinary Conference will be held at Yavapai College, Prescott, AZ. Contact: Deborah Young, U. of A. Cooperative Extension, 520-445-6590, ext. 3; FAX 520-445-6593.

September 11-14, 1996 - the American Association of State and Local History's annual meeting will be held in Nashville, TN. Contact: Jom Vaughn, 615-255-2971.

October 16-20, 1996 - the National Trust for Historic Preservation will hold its annual meeting in Chicago, IL. Call 1-800-944-6847.

October 24-27, 1996 - the Eastern States Archaeological Federation will hold its 63rd annual meeting at the Radisson Hotel, Huntington, WV.

November 1-3, 1996 - the Second Annual American Cultural Resource Association Conference will be held in Sacramento, CA. Contact: Dana McGowan, Jones & Stokes Associates, Inc.; 916-737-3000.

November 6-9, 1996 - the Southeastern Archaeological Conference will hold its annual meeting in Birmingham, Alabama. For further information, contact Jim Knight or Ian Brown, Department of Anthropology, University of Alabama, Tuscaloosa, AL 35487.

January 8-12, 1997 - Society for Historical and Underwater Archaeology will hold its annual conference at the Marriott Bayfront, Corpus Christi, TX. Contact: Dr. David L. Carlson, Program Coordinator, Anthropology Department, Texas A&M University, College Station, TX 77843-4352; 409-847-9248; FAX 409-845-4070; e-mail sha97@tam2000.tamu.edu.

SHA '97 Conference Corpus Christi, Texas

The 1997 Society for Historical and Underwater Archaeology will be held at the Corpus Christi Marriott Bayfront between January 8 and 12, 1997. The conference is hosted by the anthropology department at Texas A&M University (TAMU) and co-hosted by the Institute of Nautical Archaeology (INA), Ships of Discovery, and the Corpus Christi Museum of Science and History.

The theme for the conference is *Seaports, Ships, and Central Places* in recognition of the role of the city in international trade since its beginnings as a smuggler's outpost. Archaeological evidence of trade is a topic of continuing interest to historical archaeologists. The concept of central places broadens the theme to include inland administrative and trade centers that are not seaports. Participants are strongly encouraged to submit papers and organized session which contribute to these themes.

Each contributor should submit a title and abstract using the 1997 Application Form. Abstracts should be typed and must not exceed 150 words. In addition to hard copy, abstract submissions on disk or e-mail submissions will be appreciated. Abstracts must be received by May 31, 1996.

For further information and official application, contact Dr. David L. Carlson, Program Coordinator, Anthropology Department, Texas A&M University, College Station, TX 77843-4352; 409-847-9248; FAX 409-845-4070; e-mail sha97@tam2000.tamu.edu.

Advisory Council..

..continued from page 1

106 process also guarantees that tribal, state, and local governments, as well as private citizens and businesses, will have an opportunity to participate in the planning process when the proposed undertaking affects historic resources.

It is important that you contact your representative and senators soon to tell them of the important need to reauthorize the Council. It is extremely important to write members of the House Resources Committee and the Senate Energy and Natural Resources Committee since these committees must pass reauthorization legislation first before it goes to both chambers of Congress for a vote. If your representative or senators are not on either committee, it is still vital to communicate with them and explain the important role that the Council plays in our country's historic

preservation system. Eventually, all members of Congress will have to vote on legislation reauthorizing the Council.

The following are a few suggested points when talking or writing to your legislator:

Support H. R. 3031, which reauthorizes the Council until the year 2002 at no more than \$5 million (actual appropriations are likely to be less).

The Council is the only federal agency that ensure that federal agencies take into account the effects of their actions on historic resources, and there are no other federal agencies that can perform the statutory responsibilities of the Council.

If reauthorization is not passed, the Council's yearly appropriation would be in jeopardy.

Without reauthorization, the potential for delay, litigation, and loss of valuable historic resources would be significant.

Below are the names of members who sit on the House Resources Committee and the Senate Energy and Natural Resources Committee. Please write or call your representative and senators as soon as possible. You can contact your members of Congress at:

The Honorable (name)
U.S. House of Representatives
Washington, DC 20515

The Honorable (name)
United States Senate
Washington, DC 20510

State News

Virginia

Virginia Offers State Income Tax Credit for Historic Rehabilitations

Governor George Allen has signed into law a bill to give a state tax credit to individuals, partnerships, or corporations who conduct historic rehabilitation projects on certified historic structures. Certified historic structures are those that are either eligible for or listed on the Virginia Landmarks Register or are certified by the Director of the Virginia Department of Historic Resources as a contributing resource within a historic district that is listed on the state register. The tax credit will be effective for the taxable year beginning after January 1, 1997, and will be implemented on a stepped schedule:

Year	% of Eligible Expenses
1997	10%
1998	15%
1999	20%
2000 and thereafter	25%

The Virginia Department of Historic Resources (VDHR) will review the tax credit applications to determine the amount of eligible rehabilitation expenses and issue certificates of credit. Eligible expenses will be those incurred in the material rehabilitation of a structure, the cost of which amounts to at least 50% of the assessed value of the structure for local real estate tax purposes. Further, the rehabilitation must be consistent with the Secretary of the Interior's Standards for Rehabilitation. The Director of the VDHR is responsible for establishing regulations for the program.

Pennsylvania..

..continued from page 1

Pennsylvania's Archaeological Heritage" (the Alliance) held a open meeting May 2 in Harrisburg.

The opening discussion dealt with events to date, including the fact that for the past five months PHMC has been unable to meet its responsibilities under the new terms of Title 37 of Pennsylvania History Code. Unless funding is provided, there is no indication that this situation will change. Hopefully, Rep. Mundy's efforts to organize other legislators in the Democratic Party will find a way to counteract the disastrous effects of this legislation.

Next on the agenda was the discussion of a document that considers the potential effects of Act 70. Prepared by the Bureau of Historic Preservation at the request of Rep. Dwight Evans (Chairman of the Committee on Appropriations), this document address the following topics:

The estimated costs of conducting the archaeological investigations required under the new terms of Act 70.

If Act 70 had not been passed, BHP estimated that the cost to developers for archaeological investigations would have been \$1,250,000 annually. Under the terms of Act 70 BHP estimates that PHMC could conduct the work in-house for \$600,000 or contract the work out to private consultants for \$1,000,000.

Participants of the meeting felt that a minimum budget of \$1,000,000 would be necessary for any program and that \$1,250,000 was more realistic. Furthermore they felt that an in-house program would only add to the already understaffed workload of PHMC. Furthermore, an in-house program would have a serious economic impact on Cultural Resource Management firms throughout the state.

The Department of Environmental Protection (DEP) and interpretation of Act 70.

In regards to preexisting agreements with landowners, PHMC

indicated that it felt that DEP's intention was to apply the legislation retroactively. Therefore, all previous agreements with landowners to either avoid or investigate known significant sites would be declared null and void. Under the terms of Act 70 developers may proceed with their construction projects, destroying any existing sites with no oversight by PHMC.

Amending or repealing the Act 70 legislation

[Notes on this topic did not include the BHP's response, only those of the participants.] The Alliance's position is that the PHMC was derelict in it's duties when it agreed to the terms put forth in this legislation. There were certain failings in the previous system, including public education and community outreach components. The Alliance puts forth that there is a solution where in the public could benefit from the expenditure of public monies on a PHMC program for conducting archaeological investigations. They suggests that all archaeological investigations include one or more of the following elements:

- a public version of the report to be distributed to public libraries near the project area;
- local public forum meetings conducted by archaeologists involved in local projects;
- archaeologists involved in local projects could submit articles to or agree to be interviewed by a local newspaper; or
- large scale data recovery excavation would involve local amateur society members and volunteer labor from the community, as well as conduct site tours.

The Alliance is seeking donations from concerned members of the archaeological community nationwide to raise funds to pay for lobbyists. Anyone wishing to assist in this effort please contact Sarah Neisuis at SAWN@grove.iup.edu.

Field School

CENTER FOR AMERICAN ARCHEOLOGY

Kampsville Archeological Center

Ceramic Technology Field School

During the summer of 1996, the Center for American Archeology is offering a special five-day Ceramic Technology Field School. The course instructor, John White, is a skilled potter who is well versed in the prehistoric ceramics of the Lower Illinois Valley.

Field school participants will take field trips to learn how to distinguish different natural clay sources and how to collect the clay best suited for the classes. Students will be taught to process, by hand, the clay and any additives used in conjunction with the clay. John will provide background information on the wide range of prehistoric ceramic types found in Illinois. All participants, whether novices or accomplished potters, will learn to create basic prehistoric vessel forms and will advance to more difficult forms as the class progresses. Students will construct a replica of a Middle Woodland firing pit. Vessels made at the beginning of the course will be fired. This course is a unique opportunity to learn about the prehistoric past of Illinois and to participate in a living craft tradition.

Applicants must be high school age or older to enroll.

Schedule: June 17 - 21, 1996
Instructor: John White
Cost: \$300.00 per person
(includes room and board)

Internet News

A New List: LITHICS-L

Hugh Jarvis has just started a new listserv list called Lithics-L. It will be for the discussion of all matters pertaining to the analysis of archaeological lithics, natural and artificial. It will include the usual space for announcements, discussion, queries, and hopefully solutions relating to theory, method, and research information.

Characterization and sourcing, dating, structural and technological analysis, nomenclature, and so on will be apropos. Artifact style and form will only apply when they relate to the former.

It is hoped that this forum will increase the dialogue with our colleagues on all continents. It will also help to continue the refinement of the science of lithic analysis!

While only subscribers may post directly, others may direct their messages to Hugh Jarvis. To post messages, send them to

LITHICS-L@LISTSERV.ACSU.
BUFFALO.EDU.

If you would like to subscribe, or if you know someone who would benefit from being subscribed, please ask them to send the message SUB LITHICS-L FIRST_NAME LAST_NAME to
LISTSERV@ACSU.BUFFALO.EDU.

Direct questions or comments to:

Hugh Jarvis
hjavis@acsu.buffalo.edu

Publications

Common Ground

The National Park Service has issued its first volume of *Common Ground: Archeology and Ethnography in the Public Interest*. Formerly titled *Federal Archeology*, the name change for this publication arose from the formal merger of archaeology and ethnography at the National Park Service. This merger means even broader coverage of the cross-disciplinary partnership projects that for years have been a staple of *Federal Archeology*. Subscription is free. Contact: Editor, NPS Archeology and Ethnography Program, PO Box 37127, Washington, DC 20013-7127; 202-343-4101; FAX 202-523-1547; e-mail david_andrews@nps.gov or joe_flanagan@nps.gov.

Second Lives

Second Lives: a Survey of Architectural Artifact Collections in the United States provides information on 170 collections of architectural fragments removed from historic structures. Information about collections is organized by state and then indexed by category of structural or building element. Since most of the objects are in storage, appointments must be made in advance to view the collections.

This survey, compiled by Emogene A. Bevitt in 1994, provides critical addresses, contact persons, and telephone numbers. 112 pages. Order from the Government Printing Office; 202-783-3238; Stock Number 024-005-01145-5.

Job Announcements

**The Center for Archaeological
Research
The University of Texas at
San Antonio**

Job Announcements

The Center for Archaeological Research (CAR) has openings for one or two individuals to assist in the preparation of grant proposals. The proposals will seek support for our Legacy educational outreach program and curatorial support. Applicants must have excellent writing skills with an M.A. degree in anthropology or

relevant discipline. Prefer applicants who have demonstrated success in grant writing. These tasks are to be performed during the summer months. Salary dependent upon qualifications, part-time or full-time. These positions are temporary.

CAR has an opening for a part-time, temporary position as editorial assistant for the production of archaeological reports. Require demonstrated excellent WordPerfect and editorial skills, and BA degree. Prefer experience with technical editing and production of

archaeological reports. This individual would assist our editor in preparing draft and final archaeological reports. Salary dependent upon qualifications.

Send vita to:

Center for Archaeological Research
University of Texas at San Antonio
6900 N. Loop 1604 West
San Antonio, TX 78249-0658

For more information, call Robert Hard,
or Britt Bousman 210-691-4378.

Graphics Artist Needed

Commonwealth Cultural Resources Group, Inc. (CCRG), the Jackson (Michigan) cultural resources consulting firm, is seeking a candidate to fill the full-time, entry-level position of graphic artist. Must have degree or technical certification in graphic design or equivalent experience. Candidate will be working with IBM-based Micrographx Designer and WordPerfect for Windows.

CCRG's graphic artist is responsible for technical and market designs, with an emphasis on cartographic representation. Computer literacy is required; some GPS/GIS experience would be helpful; archaeological and mapping experience is preferred.

Position reports directly to the Director of Administrative and Technical Services. The successful candidate will possess good oral and written communication skills, flexibility and resourcefulness, and the ability to work without close supervision.

CCRG offers a competitive benefits package, paid holidays, and 401(k) retirement plan. Interested candidates should send a letter of interest and resume to:

Nancy Ford Demeter
Director of Administrative and Technical Service
Commonwealth Cultural Resources Group, Inc.
2530 Spring Arbor Road
Jackson, MI 49203-3602

Telephone inquiries will not be accepted.

CCRG is an Equal Opportunity Employer

Research Scientist Associate Prehistoric Project Archaeologist

The Center for Archaeological Research, the University of Texas at San Antonio, seeks a individual to fill the position of Research Scientist Associate. Position requirements include a Ph.D. in Anthropology or Archaeology, and two years experience in directing prehistoric archaeological research; working knowledge of prehistoric artifact analysis and statistical analysis.

Candidate should have demonstrated ability in archaeological field work including directing archaeology crews. Also candidate should have good writing and basic word processing skills, as well as experience with prehistoric artifact analysis, report preparation, and laboratory processing.

In addition, it is preferred for candidate to have two years experience working with hunter-gatherer materials and lithic artifacts, supervising projects, conducting analysis and writing archaeological reports. Experience in Texas, southwest, plains, or northern Mexico archaic material especially helpful. Also the candidate should have working knowledge of statistical analysis and PC computer programs, including MS Word, WordPerfect, Quattro Pro, and/or Excel. Successful candidate must be able to work with people, and closely coordinate and integrate team efforts in archaeological field and laboratory settings.

Salary negotiable based on qualifications.

Center for Archaeological Research
University of Texas at San Antonio
6900 N. Loop 1604 West
San Antonio, TX 78249-0658

For more information, call Robert Hard, or Britt Bousman 210-691-4378.

Assistant Professor of American Studies and Folklore

Fulbright leave replacement position (with benefits) in undergraduate/graduate American Studies program for 1996-97 academic year (August 15- May 15). Primary teaching areas are: folklore, ethnic studies, and material culture. Expertise in twentieth-century American history and culture highly desirable. Four-course/section teaching load per semester expected. Ph.D. in folklore, American studies, or related fields required. Previous teaching experience strongly preferred.

Prompt submission of applications encouraged because screening will begin May 31 with decision anticipated no later than July 12. Send curriculum vitae; names, addresses and telephone numbers of three references; and letter describing how candidate's qualifications match the position description to:

Dr. William J. Mahar
c/o Ms. Dorothy J. Guy
P.O. Box AMSTD
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4898.

Penn State is an EOE/AA employer and welcomes candidates from historical underrepresented groups.

Preservation Services Representative

The Conservation Center for Art and Historic Artifacts, regional conservation center in Philadelphia, is seeking an individual to assist the Reservation Services Office in the implementation of outreach programs and services. Responsibilities include conducting overview surveys of libraries, archives,

museums, and institutions with historic collections; conducting educational programs and workshops; developing and managing the reference collection; and developing technical information materials on preservation topics for clients.

Requirements are: MLS degree, an advanced degree with concentration in preservation or conservation, or equivalent, plus two years experience working in a library, archives, or museum; a thorough understanding of preservation principles, practice and issues; and excellent written, verbal, and interpersonal communication skills. Some travel is required. Position available in June 1996. Salary is commensurate with experience.

Submit letter of application, resume, and the names of three references to:

Virgilia Rawnsley
Preservation Services Office,
Conservation Center for Art and
Historic Artifacts
264 South 23rd Street
Philadelphia, PA 19103
TEL: 215/545-0613
FAX: 215/735-9313
Email: ccaha@shrsys.hslc.org

For Your Information

Kerri Culhane of the Mid-Atlantic office of Gray & Pape, Inc., has been elected as president of the newly formed Central Virginia Chapter of the Society of Architectural Historians. The chapter plans to be a proactive voice in preservation and will seek to educate the public concerning historic preservation issues.

ARCHAEOLOGICAL EQUIPMENT FOR SALE OR RENT

ARCHAEOLOGICAL SOIL FLOTATION DEVICE

These flotation devices are perfect for recovering the small artifact, floral and faunal remains that go right through your screens. In use throughout the world, they are built largely of plastic for lightweight durability. They can be operated using any standard garden hose. A single operator can process hundreds of liters of soil per day. The device comes fully assembled and complete with instruction manual, bung tool, one heavy fraction collector, and one light fraction collector. Two sizes are available: 50 gallon (\$350.00) and 30 gallon (\$350.00) capacity. Also available are a Bucket Flotation System, Finder Probes, and extra heavy & light fraction collectors. For further details and free brochure contact:
