Alaska

The Alaska Historical Commission met November 14, 1996, in Anchorage. Among the items on the agenda was a demonstration and discussion of the statewide inventory of sites, buildings, and structures, known as the Alaska Heritage Resources Survey (AHRs). Commission members endorsed the Office of History and Archaeology's efforts to get additional funding to alleviate the backlog and encouraged staff to investigate moving the inventory to a Geographic Information System. Commission members reviewed several geographic name proposals and approved one, Cutthroat Creek, in southeast Alaska. Members also discussed several threatened historic properties, among them Creamer's Dairy barns in Fairbanks, Nike Site Summit in Anchorage, the coal bunkers in Fairbanks, and the Matanuska Colony cannery-creamery building in Palmer.

Indiana

Indiana will celebrate its second annual Archaeology Week September 15-21, 1997. If you, your university, group, or museum would like to plan any Archaeology Week activities, please contact the office below by March 30, 1997.

Kentucky

14th Annual

Kentucky Heritage Council Archaeological Conference

The 14th Annual Kentucky Heritage Council (KHC) Archaeological Conference was held March 14-16, 1997, at Natural Bridge State Park, located on the edge of the Daniel Boone National Forest in the Red River Gorge area of east-central Kentucky. The conference was co-hosted by the KHC and the Daniel Boone National Forest. Activities began on Friday afternoon with a brief overview of the archaeology of the Red River Gorge area followed by a walking (climbing?) tour of rockshelters in the area. Tours were guided by Forest Service archaeologists Cecil Ison and Johnny Faulkner.

Saturday began the paper presentations, which continued through noon on Sunday. David Pollack of the KHC served as M.C. Nineteen of 21 scheduled papers were presented, covering topics ranging from the Paleoindian period to the recent past, and most periods in between. Several papers dealt with the environs of the Red River Gorge area, with three papers on rockshelters and two papers dealing with historic utilization of the area (millstone quarrying and splash dams).

Three papers dealt directly with public archaeology and the use of volunteers. In one case, fourth graders conducted much of the fieldwork at a site in Greenup County, and in another case, the Clay County High School Anthropology Class not only conducted the investigations, cleaned and analyzed the artifacts, but they also presented the paper.

Conference Calendar

March 22-23, 1997 - Symposium on Ohio Valley Urban Archeology will be held at the Executive Inn, Paducah, KY. For further information, contact Kit Wesler, Wickliffe Mounds Research Center, PO Box 155, Wickliffe, KY 42087; 502-335-3681; kwesler@msumusic.mursuky.edu.

April 2-6, 1997 - Society for American Archaeology will hold its 62th Annual Meeting at the Opryland Hotel, Nashville, Tennessee. To receive a copy of the preliminary program, contact Janet Walker, the Society for American Archaeology, 900 Second Street, N.E., #12, Washington, DC 20002-3557; 202-789-8200; FAX 202-789-0284; e-mail meetings@saa.org.

April 4-5, 1997 - The Historical Archaeology Conference of the Upper Midwest will be held in Red Wing, Minnesota. For further information, contact: John P. McCarthy, Institute for Minnesota Archaeology, 3300 University Avenue, S.E. Suite 202, Minneapolis, MN 55414; 612-623-0299; e-mail jpmcc@mtn.org.

April 16-20, 1997 - Archaeology of The British 1600-1800: Views from Two Worlds. A special 30th Anniversary

Joint Conference of The Society for Historical Archaeology and The Society for Post-Medieval Archaeology to be held in Williamsburg, VA. Contact: SHA/SPMA 97, Department of Anthropology, College of William and Mary, Williamsburg, VA 23187.

April 25-27, 1997- Southwest Oral History Association's Annual Meeting will be held at the Doubletree Hotel in Pasadena, California. To receive a complete program and registration form, call Brad Williams at 818-795-0266 or e-mail Barbara Hall at barbnval@aol.com. The deadline for registration is April 18, 1997.

May 2-3, 1997 - The Middle Atlantic Folklife Association will be holding its 1997 Annual Conference in Ithaca, NY. Anyone wanting more information may contact the New York Folklore Society, PO Box 130, Newfield, NY 14857 or e-mail: dcnyfs@aol.com

May 7-11, 1997 - Canadian Archaeological Association's 30th Annual Conference will be held in Saskatoon, Saskatchewan, Canada. Contact: Margaret Kennedy, Conference Coordinator, Department of Anthropology/Archaeology, University of Saskatchewan, Saskatoon, Saskatchewan,

Canada S7N 5A5; 306-9664182; e-mail kennedym@duke.usask.ca.

May 9-10, 1997 - 5th Ohio Archaeological Council Conference will be held at the Christopher Conference Center, Comfort Inn, Chillicothe, Ohio. For further information, contact OAC Conference Coordinator, Martha Otto, Department of Archaeology, The Ohio Historical Center, 1982 Velma Avenue, Columbus, OH 43211; 614-297-2641; FAX 614-297-2233.

May 16-18, 1997 - A Symposium on the Cultural History of the Mountainous Eastern United States will be held at James Madison University, Harrisonburg, VA. Contact: Dr. Clarence R. Geier, Professor of Anthropology, 205 Sheldon Hall, James Madison University, Harrisonburg, VA 22807; 540-568-6973; FAX 540-568-6920.

May 29 - June 1, 1997 - Society For Industrial Archeology meeting will be held at the Michigan Technological University in Houghton, Michigan. Contact: SIA Headquarters, Department of Social Sciences, Michigan Technological University, Houghton, MI 49931; 906-487-1889; FAX 906-487-2468; e-mail PEM-194@mtu.edu.

Call For Papers

Southeast Chapter Society of Architectural Historians

The Fifteenth Annual Meeting of SESAH will be held in Atlanta on the Georgia Tech campus from October 2-4, 1997. The three-day meeting will conclude with a tour of Atlanta's Inman Park plus a visit to a private collection of Southern Primitive art, and a walking tour through Emory University's excellent Classical and Modern buildings. Elizabeth Dowling, Program Director for the 1997 meeting, invites interested faculty, professionals and graduate students to submit proposals for papers.

As many as ten sessions of four papers each will be organized around the best proposals with papers on regional topics being especially encouraged. In past conferences papers have been presented on topics ranging from technical to theoretical, representing time periods from the ancient to the contemporary.

Please submit a 250-word abstract to Daniel F. MacGilvray, Paper Sessions Chair, Department of Architecture, Texas A&M University, College Station, Texas 77843-3137. Telephone: 409-847-9479. Fax: 409-862-1571. e-mail: danmac@archone.tamu.edu

Deadline for receipt of abstracts, by mail, fax, or e-mail, is May 1, 1997. Abstracts will be reviewed by a Program Committee. Authors will be notified of acceptance by June 13, 1997. For information concerning the conference, you may contact Elizabeth Dowling at the College of Architecture, Georgia Tech, Atlanta, GA 30332-0155; telephone 404-894-3803; e-mail: betty.dowling@arch.gatech.edu.

Seminars

1997 Seminars in Historic Preservation & Cultural Resource Management

The National Preservation Institute (NPI) announces a series of professional development seminars on the management and stewardship of cultural and historic resources, as well as compliance and contracting aspects. These one- and two-day seminars bring distinguished faculty to highlight state-of-the-art practice in important areas of historic preservation and cultural resource management. Seminars focus on enhancing the skills of professionals responsible for the preservation, protection, and interpretation of historic, archaeological, and cultural resources. Case studies and small group exercises focus on the information, technology, and skills which effect managers in today's changing preservation environment.

Course titles include:

- Accessibility and Historic Integrity
- Affordable Housing and Historic Preservation
- Integrating Cultural Resources and Environmental Compliance
- Issues in Federal Cultural Resource Compliance
- Contracting for Cultural Resources Tasks
- Getting the Story Out: Writing on Archaeology and Historic Preservation for a Popular Audience
- Cultural Resource Management Plans: Preparation and Implementation
- Identification and Management of Traditional Cultural Places
- Twentieth-Century Architectural Styles: Problems of Identification and Definition
- Practical Application of the Secretary of the Interior's Standards for the Treatment of Historic Properties
- Photodocumentation of Historic Structures
- Photodocumentation for Archaeologists

For further information contact: Jere Gibber, PO Box 1702, Alexandria, VA 22313; 202-393-0038; or visit NPI at www.npi.org for course descriptions and agendas for each NPI course.

Workshop

Great Lakes Public History Workshop

May 22-23, 1997

Sleeping Bear Dunes National Lakeshore

The Great Lakes Public History Workshop is a forum for historians, archaeologists, and architects interested in documenting and interpreting the cultural resources of the Great Lakes national parks, national forests, and state conservation areas. The goal is to provide a common ground for resource managers, academicians, and consultants to share research and explore issues of common concern. While each workshop will provide an opportunity to explore a range of issues, there will be a thematic focus (ie. maritime resources, logging, mining) to facilitate a hands-on field work component.

The two-day workshop will be divided into equal parts colloquium and field work. On May 22 participants will gather at the Leelanau Historical Museum for formal presentations of research and an informal open forum. The May 23 field exercise will focus on identifying and evaluating agricultural historic resources.

For Registration information please contact:

Ted Karamanski
Loyola University
773-508-2684
or
Don Stevens
National Park Service
402-221-3915

This program is sponsored by the National Park Service, the Loyola University Program in Public History, and the National Council on Public History.

State News...

...continued from Page 1

Remote sensing at a site, a county-wide survey of mounds, and a study of prehistoric textiles augmented the survey and site testing reports. Papers on historic archaeology included the aforementioned studies of millstone quarrying and splash dams, as well as archaeology at a house museum site, among others.

Not all topics related to Kentucky, and not all paper presenters were from the state, as Ohio, Indiana, Illinois, and Missouri were represented among those presenting papers. Presenters represented state agencies, federal agencies, universities, and private consulting firms. Several papers represented work conducted by the Kentucky Archaeological Survey, a joint venture of the KHC and the University of Kentucky.

Selected papers from the conference will be published by the KHC in their Current Research in Kentucky series. Both the KHC and the Daniel Boone National Forest should be commended for conducting such a successful conference.

Maine

In September, the U.S. Senate approved legislation permitting the U.S. Coast Guard to transfer 36 of Maine's 64 working lighthouses to other agencies better able to provide for their long-term maintenance and preservation. First priority in the disposition of the lighthouses will fall to other federal agencies, followed by the state and towns, and finally by private groups, including non-profit organizations, educational agencies or community development corporations. The federal government will transfer title, free of charge, of a particular lighthouse for a period of 30 years, with the recipient charged with the responsibility of maintaining the building(s) and grounds and assuring public access to the site. The Coast Guard will maintain control of the actual lights and foghorns, and

Page 4

will make periodic inspections of the property to insure compliance by the new occupant.

The creation of the Maine Lights Program, as it is now called, was spearheaded by Peter Ralston, vice president of the Island Institute. Interested parties should apply directly to the Island Institute in Rockland. (Information taken from *Maine Preservation*. No address as listed for Island Institute. For address contact *Maine Preservation*, PO Box 1198, Portland, ME 04104.)

Maryland

April is Maryland Archaeology Month. For a "Calendar of Events," contact Linda Durbin, Office of Archeology, Maryland Historical Trust, at 410-514-7661.

Missouri

The Missouri Cultural Resources Inventory contains information on railroad depots and other railroad-related properties in 71 of the state's counties and in St. Louis. In most cases, this information is on buildings extant in 1969 or later. Many of these depots, all of which were significant elements of their community's history, have been destroyed. For further information or a current list of depots, contact Steve Mitchell at 573-751-7800 or write: Department of Natural Resources, Historic Preservation Program, Box 176, Jefferson City, MO 65102.

Montana

The Society for American Archaeology (SAA) has awarded \$12,000 in grants to the Montana Historical Society as part of a multi-year project developed by SAA's Public Education Committee in partnership with the Bureau of Land Management, the Bureau of Reclamation, and the National Park Service Archeology and Ethnography Program. Grants are awarded in an effort to extend SAA's

network of volunteer archaeology education coordinators, who will put teachers and other interested member of the public in touch with sources of information about archaeology. Mark Baumler, Montana's state archaeologist, and Marcella Walter, Montana Historical Society education officer, will serve as joint coordinators of the Montana Ancient Teachings Education Project. This program will prepare educational materials, train archaeologists and educators, and develop on-line databases of archaeology education resources for teachers. For more information about SAA's grants project contact: Dorothy Schlotthauer Krass, Manager, Public Education, 202-789-8200; FAX 202-789-0284; e-mail - public_edu@saa.org.

New Jersey

The New Jersey Historic Preservation Office (HPO) has received an award of \$574,037 from the New Jersey Department of Transportation and the Federal Highway Administration's Intermodal Surface Transportation Enhancement Act (ISTEA) funds to develop a Geographic Information System for cultural resources. This project was among 45 projects recommended by the Enhancement Evaluation Committee from among 226 applications, requesting \$122 million.

The money will be used to develop data layers to input existing archaeological and architectural survey data for two counties, Gloucester and Salem, as a pilot development project. Using the Global Positioning System, the project will include a comprehensive survey of Salem County. Located within the New Jersey Department of Environmental Protection, the Historic Preservation Office will coordinate with the existing land use data base system. This pilot project will enable the HPO to project time and cost factors to digitize the entire state's cultural resource information.

Easy accessibility of cultural resource information can effectively streamline the regulatory process and assist in predictability during project planning.

The HPO will establish an Advisory Committee from coordinating agencies which will ensure policy consistency throughout this project.

[Taken from *The Historic Preservation Planning Bulletin*, October- December 1996. Published by the New Jersey Department of Environmental Protection, Historic Preservation Office.]

New Mexico

Glorieta Pass Sites Protected

Sharpshooters Ridge, the ruins of Pigeon's Ranch, and four additional properties at the heart of the Glorieta Pass Battlefield, site of the West's most important Civil War battle, are now part of Pecos National Historical Park near Santa Fe, New Mexico. The Conservation Fund, which purchased the five properties as additions to the National Historical Park, announced on September 23, 1996, that it had transferred the fifth property to the National Park Service.

Ohio

Effective in March, Brett Harper is the new editor of the Ohio Archaeological Council (OAC) newsletter. The Executive Board of OAC has approved a biannual mailing schedule for the newsletter - August and February - offsetting the formal meetings in May and November. Brett Harper can be contacted at: PO Box 452, Lebanon, OH 45036; 513-932-5813.

South Carolina

February 19, 1997

FOR IMMEDIATE RELEASE

CHARLESTON, SC -- A S.C. couple has filed suit in U.S. District Court today challenging the U.S. Army Corps of Engineers authorization of a Nationwide Permit to the County of Charleston for roadway construction through wetlands on property known

as "the Sheppard Tract."

Oak Hall Plantation owners Russ and Lee Pye have filed suit, alleging the Corps authorization violated provisions of the National Historic Preservation Act, the National Environmental Policy Act, and the Endangered Species Act.

Charleston County officials chose a historic 750-acre rice plantation south of Charleston, near the pristine Edisto River (part of the federally funded ACE Basin Project, for a proposed hazardous ash monofil landfill site. The plantation has documented archaeological and cultural resources and is habitat to endangered species. More than half of the site, former rice fields of the plantation, is considered wetlands. The property's only access is by a 50 foot right-of-way off U.S. Highway 17 requiring wetlands fill for road construction.

Area residents became concerned when they learned permits issued for this project failed to consider, among other things, the historical significance of the area and the environmental impacts to the adjacent wetlands.

The U.S. Fish and Wildlife Service, when asked to comment on the undertaking, recommended that an environmental assessment be conducted on the entire 750-acre site, rather than considering only the proposed wetland crossing, with particular attention given to potential impacts to endangered species. The suit alleges that the Corps permit is a federal undertaking that would significantly alter the human environment and the Corps failed to prepare an environmental impact statement as required by law.

Additionally, the Advisory Council on Historic Preservation had contacted the Corps regarding the Corps responsibilities to identify and assess impacts on historical properties. Despite those concerns, the Corps authorized the road construction under their Nationwide Permitting authority, citing the U.S. Army Corps of Engineers' South Atlantic Division memorandum ("Sanders Ruling") that prohibits consideration of historical and natural resources when they may be located outside the "footprint of the project site." However, with the only legal access to the property requiring

the federal permit, development of the property cannot occur but for the federal involvement.

The suit challenges the Corps of Engineers as having implemented guidelines that are contrary to public law and petitions the court for declaratory relief. This matter should be of particular interest to cultural resource management professionals and environmentalists who wish to see the U.S. Army Corps of Engineers' Nationwide permit program comply with historic preservation and environmental laws.

Inquiries may be directed to the attorneys for the Plaintiffs: C.C. "Cotton" Harness, Esq., Perrin Q. Dargan, Esq., and Jack D. Todd, Esq. with the firm of Ogletree, Deakins, Nash, Smoak & Stewart at 803-853-1300 or William A. Scott, Esq. with the firm of Pederson & Scott at 803-762-7500.

Texas

Reviewers at The Texas Historical Commission (THC), Division of Antiquities Protection (DAP) have been shorthanded since the first of September, due to the loss of two key personnel, Sergio Iruegas and Tim Perttula. Consequently, DAP has experienced some difficulty keeping within their 30-day limit for responding to requests for reviews. However, considering the loss of manpower, the review staff has done an exceptional job, completing most reviews quite rapidly.

Current database figures indicate that the average THC response time is 7.2 working days, and only 1.8 percent of reviews have taken longer than 30 days to complete. When these figures are compared with those for the same period in 1995 (7.4 days and 1.1%) it is clear that DAP reviewers have been working very hard to respond in a timely manner.

As soon as DAP realizes that a review cannot be completed within 30 days, they write a letter requesting an extension. DAP asks that everyone please bear with them until they can bring their staff level back up.

Publications

Down By The Station: Los Angeles Chinatown 1880-1993.

Down By the Station, summarizes historical research, fieldwork, and laboratory analysis, as it provides an unprecedented window into the Chinese American experience and the cultural life of people living in the Los Angeles Chinatown in the late nineteenth and early twentieth century. Within the excavated area, numerous cultural features were identified and sampled. The assemblage of material objects reflects the import, preparation, and service of food; recreation; health practices; the presence of women and children; rubbish disposal practices; and a degree of participation in local social networks.

The book begins by presenting

the historical and geographical context of the Los Angeles Chinese community once it had taken root on previously vacant land utilized almost entirely for agriculture and its persistence as an intact community until its demolition which sealed the remains below many feet of sterile fill.

The archaeological context from which the material objects were recovered is described next, followed by the data derived from the recovery program. These findings are grouped in chapters to illuminate the full picture of life as it was lived by Chinese American people in the Los Angeles Chinatown between 1880 and 1933. The concluding chapter synthesizes the contributions of this project to our understanding of life ways that have disappeared, often without adequate or accurate documentation.

Down By The Station is written by Roberta S. Greenwood and has been awarded the Cotsen Prize Imprint. This book is available through University Museum Publications, 1-800-306-1941; ISBN: 0-917956-87-7; 232 pages, with 8 color pages.

Archaeological Equipment for Sale or Rent

Do you do archaeology in any of these places?

Alabama, Alaska, Arizona, California, Colorado, Delaware, District of Columbia, Florida, Georgia, Guam, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Minnesota, Montana, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, Texas, Utah, Virginia, Washington, West Virginia, Wyoming, Canada, Sri Lanka, or Panama.

For over sixteen years, archaeologists in these places has used my plastic drum flotation devices to recover the most from their sites. These durable, portable lightweight devices process large samples quickly and completely. They come ready to hook up to a garden hose. Now the choice of archaeologists from coast to coast, they are only \$375.00 complete. If you want to get more out of your sites, call write or FAX for more information.

Job Announcements

Historic Preservation Specialist

The South Dakota SHPO is seeking a historic preservation specialist. The position will manage the procedures and research to list sites on the National and State registers of historic places, work with certified local governments, coordinate architectural and historic site surveys, and assist with planning for the southeastern portion of the state.

This position requires at least a bachelor's degree in history, art history, architectural history, architecture, historical preservation, or a related field and one year of historic preservation experience; or an equivalent combination of related education and experience.

Minimum salary: \$10.96/hour (N15)

Applications must be filed on an official South Dakota Bureau of Personnel application form. Applications postmarked within 24 hours after the closing date will be accepted. Send applications to: South Dakota Bureau of Personnel, 500 E. Capitol, Pierre, SD 57501.

Part Time Assistants The Civil War Trust

The Civil War Trust is the nation's largest nonprofit organization devoted to the preservation of Civil War battlefields. We are located in Arlington, Virginia (in the Washington, D.C. area.) We are currently seeking short-term part-time assistance with two projects. If you know of anyone who is interested in either of the following positions, please ask him or her to fax a resume with references and salary requirements to my attention at 703-516-4947 or to e-mail it to me at <civilwar@ari.net>

3D/International Environmental Group

3D/International Environmental Group (3D/E) has just completed a restructuring of our Cultural Resources Management group, now a part of the Energy, Transportation, and Cultural Resources Management Group (ETC). We are interested in hiring motivated archaeologists for Senior Principal Investigator and Field Director staff positions in the Cincinnati office. The hiring process is to start immediately and will go through spring, when the final candidates will be selected for employment.

The positions require a Ph.D. in archaeology (prehistoric or historic) for Senior Principal Investigator applicants and a M.A. in archaeology (prehistoric or historic) for Field Director applicants. All applicants must submit a Letter of Intent stating the position you are interested in, your level of technical capabilities, why you want to work in CRM, and what your *research* interests are in archaeology. Along with the letter, please include an updated resume, three (3) references, and a short example of your writing. Please note: references will be extensively checked, so use discretion as to whom you use. Final candidates will most likely be asked to submit two (2) references in addition to their original three. Please submit application packets to:

Bridget J. Benz - Environment Applications
3D/International Environmental Group
781 Neeb Rd.
Cincinnati, OH 45233
513-922-8199

1.) The Civil War Trust will be going on-line with a website later this spring (<http://www.civilwar.org>). We have made arrangements for the programming and design of the website but we need help creating and gathering content. The website will include Civil War history, travel and tourism, and information on battlefield preservation. Writing skills are especially important.

2.) The Civil War Trust is developing an interactive multimedia computer program called the Civil War Explorer. This exciting new program is being developed as an exhibit for Civil War sites, museums, and parks (it is already being tested at Antietam, Gettysburg, and Prairie Grove) but we are also developing a version for schools. We need a professional educator to review the program closely and assist with revisions necessary to make vocabulary and concept levels appropriate to 6th and 8th grade levels. Depending on funding, this position may become permanent.

\$30.00 Each corporate subscription is entitled to be included in the newsletter's quarterly corporate listing for one year. This corporate listing, giving address, phone number, and contact person, will be printed at the back of these issues. New corporate subscriptions will be listed each month.

Additional Office Rate:

\$10.00 Corporate subscribers with more than one office can have the newsletter sent directly to regional or branch offices for \$10.00 per additional office.

Individual Rates:

\$20.00 An individual subscription includes one free monthly classified ad per year (request for information, special services, job announcement, or position wanted).

Academic/Governmental Rates:

\$15.00 This newsletter is designed for private sector contractors. However, our colleagues from academic and governmental sectors are welcome to subscribe and to contribute information.
